HB 392 Original

2018 Regular Session

McFarland

Abstract: Exempts surface impoundments that receive wastes resulting from the production of pulp and paper generated on-site from requirements for liner, final cover, and closure and post-closure.

Present law authorizes the secretary, his designee, or the appropriate assistant secretary to exempt requirements for liners and final covers for surface impoundments which receive spent bauxite and related waste. Proposed law retains present law.

Proposed law requires the secretary, his designee, or the appropriate assistant secretary to exempt requirements for liner, final cover, and closure and post-closure for surface impoundments that receive wastes resulting from the production of pulp and paper generated on-site.

Proposed law requires the department to promulgate rules implementing proposed law that provide that at the time of closure the facility post-closure requirements shall not apply to the following:

- (1) Solid wastes that are not subject to permitting requirements or processing or disposal standards by rules and regulations promulgated pursuant to this Chapter.
- (2) Solid waste managed pursuant to an approval beneficial use plan.
- (3) Materials listed in the May 1997 agreement established by the Louisiana Pulp and Paper Association-Louisiana Department of Environmental Quality Solid Waste Beneficial Use Work Group promulgated as LAC 33:VII.3017 (Appendix I).
