

2018 Regular Session

HOUSE BILL NO. 658

BY REPRESENTATIVE LEGER

CHILDREN/NEWBORNS: Provides for a pilot project to improve outcomes associated with neonatal abstinence syndrome

1 AN ACT

2 To enact R.S. 40:1086.12, relative to neonatal opiate withdrawal syndrome; to provide for
3 a pilot project; to provide for the creation of the pilot project; to provide for the
4 duties of the Louisiana Department of Health in establishing the pilot project; to
5 provide for definitions; and to provide for related matters.

6 Be it enacted by the Legislature of Louisiana:

7 Section 1. R.S. 40:1086.12 is hereby enacted to read as follows:

8 §1086.12 Neonatal opiate withdrawal syndrome pilot project

9 (1) For the purpose of this Section, the following definitions apply:

10 (a) "Department" means the Louisiana Department of Health.

11 (b) "Infant" includes both newborn and an infant.

12 (c) "Neonatal opiate withdrawal syndrome" means the postnatal opioid
13 withdrawal experienced by an infant who is exposed in utero to prescribed or illicit
14 opioids or agents used to treat maternal opioid addiction.

15 (2)(a) The department shall establish an evidence-based pilot project
16 conducted by a multi-disciplinary team to treat infants with neonatal opiate
17 withdrawal syndrome by providing care options that are safe alternatives to the
18 intensive care unit in existing community or hospital settings for eligible
19 mother-infant dyads. This pilot shall prioritize co-location of the mother-infant dyad,
20 maternal access to evidence-based treatment of substance use disorder, and

1 promotion of practices that minimize harm and improve outcomes in infants, in
2 keeping with up-to-date clinical evidence.

3 (2)(b) In order to scale evidence-based best practices statewide, the
4 department shall convene stakeholders and providers from around the state in order
5 to promote evidence-based care of infants with neonatal opiate withdrawal syndrome
6 in partnership with the Louisiana Perinatal Quality Collaborative and the Perinatal
7 Commission.

8 (3) The department shall study comparative outcomes, risks, benefits, and
9 cost differentials for the treatment of infants with neonatal opiate withdrawal
10 syndrome in hospital and community settings included in this pilot program.

11 (4) The department shall take all steps necessary to implement this Section,
12 including but not limited to the promulgation of rules and regulations in accordance
13 with the Administrative Procedures Act, and may seek a waiver from the Centers for
14 Medicare and Medicaid Services if needed.

DIGEST

HB 658 Original

2018 Regular Session

Leger

Abstract: Establishes a neonatal opiate withdrawal syndrome pilot project.

Proposed law creates a neonatal opiate withdrawal syndrome pilot project within the La. Dept. of Health (LDH).

Proposed law establishes the duties of LDH in implementing the pilot project.

Proposed law requires the pilot project to be an evidence-based pilot project conducted by a multi-disciplinary team to treat infants with neonatal opiate withdrawal syndrome by providing care options that are safe alternatives to the intensive care unit in existing community or hospital settings for eligible mother-infant dyads.

(Adds R.S. 40:1086.12)
