
The original instrument and the following digest, which constitutes no part of the legislative instrument, were prepared by Sharon F. Lyles.

SB 212 Engrossed DIGEST Gatti
2018 Regular Session

Present law allows DOTD to lease specialized maintenance equipment which will not be needed on a permanent basis for the shortest period required under the circumstances, in accordance with the public bid law, when the secretary determines that it is necessary or economically feasible.

Present law, in all other cases, requires the DOTD to own the fixed and mobile equipment necessary to appropriately maintain and operate the facilities under its jurisdiction.

Present law does not require the DOTD to accept equipment offered at the lowest price when purchasing equipment when such practice would result in the ownership or use of so many different types or brands that economic operation and maintenance of the equipment would be impracticable.

Proposed law changes present law to authorize DOTD to rent or lease fixed and mobile equipment necessary to appropriately maintain and operate its facilities.

Proposed law does not require DOTD to accept equipment offered at the lowest price when renting or leasing equipment.

Effective August 1, 2018.

(Amends R.S. 48:262(A))

Summary of Amendments Adopted by Senate

Committee Amendments Proposed by Senate Committee on Transportation, Highways, and Public Works to the original bill

1. Changes provisions from purchase, rent, or lease to rent or lease.
