DIGEST

SB 524 Original

2018 Regular Session

Long

Present law authorizes the Sabine River Authority (SRA) to enter into any and all contracts that provide for the sale, conservation, storage, utilization, preservation, distribution, or consumption, whether within or without the state of Louisiana, of the waters over which the SRA has jurisdiction or over which the SRA has legal control.

Present law requires the written concurrence of the governor, the Senate Comm. on Natural Resources and the House Comm. on Natural Resources and Environment, and at least two-thirds of the parish governing authorities within the territorial jurisdiction of the SRA before it can enter into any contracts which provide for the sale, utilization, distribution, or consumption, outside of the boundaries of the state of Louisiana, of the waters over which the SRA has jurisdiction or control.

Proposed law retains the requirements of written concurrence of the governor, the Senate Comm. on Natural Resources and the House Comm. on Natural Resources and Environment, but removes the requirement of concurrence of at least two-thirds of the parish governing authorities within the territorial jurisdiction of the SRA.

Proposed law requires the written concurrence of the Water Resources Comm. of any contracts which provide for the sale, utilization, distribution, or consumption, outside of the boundaries of the state of Louisiana, of the waters over which the SRA has jurisdiction or control.

Effective August 1, 2018.

(Amends R.S. 38:2325(A)(16)(d) and 3097.4(D)(7); adds R.S. 38:3097.4(D)(8))
