

RÉSUMÉ DIGEST

ACT 16 (SB 37)

2018 Regular Session

John Smith

New law makes technical changes to conform to existing language in present law.

Prior law provided that no adjuster's license is required for a person employed or retained by an insurer and brought into this state for the purpose of investigating or making adjustment of losses resulting from a catastrophe or emergency. Required the commissioner of insurance to establish procedures to register all such unlicensed adjusters.

Prior law provided that a catastrophe or emergency claims adjuster license shall be effective for a period not to exceed 180 days.

New law deletes reference to a "license" and provides that a catastrophe or emergency claims adjuster registration shall be effective for a period not to exceed 180 days.

Effective August 1, 2018.

(Amends R.S. 22:1667)
