SB 524 Reengrossed DIGEST 2018 Regular Session Long

Present law authorizes the Sabine River Authority (SRA) to enter into any and all contracts that provide for the sale, conservation, storage, utilization, preservation, distribution, or consumption, whether within or without the state of Louisiana, of the waters over which the SRA has jurisdiction or over which the SRA has legal control.

Present law requires the written concurrence of the governor, the Senate Comm. on Natural Resources and the House Comm. on Natural Resources and Environment, and at least two-thirds of the parish governing authorities within the territorial jurisdiction of the SRA before it can enter into any contracts which provide for the sale, utilization, distribution, or consumption, outside of the boundaries of the state of Louisiana, of the waters over which the SRA has jurisdiction or control.

Proposed law retains present law and further requires the written concurrence of the Water Resources Comm. of any contracts which provide for the sale, utilization, distribution, or consumption, outside of the boundaries of the state of Louisiana, of the waters over which the SRA has jurisdiction or control.

Effective August 1, 2018.
