Bill Header: RETIREMENT/MUNICIPAL EMP: Provides for the Deferred Retirement Option Plan participation period for a member of the Municipal Employees' Retirement System of Louisiana.

Cost Summary:

The estimated actuarial and fiscal impact of HB 32 on the retirement systems and their plan sponsors is summarized below. Actuarial costs pertain to estimated changes in the *actuarial present value of future benefit payments*. Fiscal costs or savings pertain to changes to all cash flows over the next five year period including retirement system cash flows, OPEB cash flows, or cash flows related to other government entities.

An increase in actuarial costs is denoted throughout the actuarial note by "Increase" or a positive number. Actuarial savings are denoted by "Decrease" or a negative number. An increase in expenditures or revenues (fiscal impact) is denoted by "Increase" or a positive number. A decrease in expenditures or revenues is denoted by "Decrease" or a negative number.

Estimated Actuarial Impact:

The top part of the following chart shows the estimated change in the *actuarial present value of future benefit payments and expenses*, if any, attributable to the proposed legislation. The bottom part shows the effect on cash flows.

Actuarial Costs Pertaining to:		Actuarial Cost

Bill Information

Current Law

Current law provides that members of the Municipal Employees' Retirement System of Louisiana (MERS) may remain in the Deferred Retirement Option Plan (DROP) for a period not to exceed three years.

Proposed Law

HB 32 provides that if the employer contributions on behalf of a member are suspended during his participation in the DROP as a result of interruption of employment, the benefit payments in the DROP will also be suspended until the employer contributions are restored. In such a case the member's participation in the DROP will be extended by the number of months the benefit payments were suspended. So the participation period may extend over a period exceeding three calendar years, but benefit payments would only be made into the participant's DROP subaccount for up to thirty-six months.

Implications of the Proposed Changes

Current law does not address how DROP participation is affected by an interruption of employment. MERS has interpreted and is already administrating the DROP provisions according to the proposed law. HB 32 merely provides clarity to the DROP provisions when a member has an interruption of employment while participating in the DROP.

**2018 REGULAR SESSION
ACTUARIAL NOTE HB 32**

I. ACTUARIAL ANALYSIS SECTION

**A. Analysis of Actuarial Costs
(Prepared by the LLA)**

This section of the actuarial note pertains to actuarial costs or savings associated with the retirement systems, with OPEB, and with other government entities.

1. Retirement Systems

The actuarial cost or savings of HB 32 associated with the retirement systems is estimated to be \$0. The actuary's analysis is summarized below.

HB 32 adds a provision which describes the way the DROP is already administered by MERS, and therefore does not have any effect on the actuarial cost for the retirement system.

2. Other Post-Employment Benefits (OPEB)

The actuarial cost or savings of HB 32 associated with OPEB, including retiree health insurance premiums, is estimated to be \$0. The actuary's analysis is summarized below.

The liability for post-retirement medical insurance protection provided to retirees is not affected by aligning the DROP provisions with the way the DROP is administered by MERS.

3. Other Government Entities

The actuarial cost or savings of HB 32 associated with government entities other than those identified in HB 32, is estimated to be \$0.

**B. Actuarial Data, Methods and Assumptions
(Prepared by the LLA)**

Unless indicated otherwise, the actuarial note for HB 32 was prepared using actuarial data, methods, and assumptions as disclosed in the most recent actuarial valuation report adopted by PRSAC. The data, methods and assumptions are being used to provide consistency with the actuary for the retirement system who may also be providing testimony to the Senate and House retirement committees.

**C. Actuarial Caveat
(Prepared by the LLA)**

There is nothing in HB 32 that will compromise the signing actuary's ability to present an unbiased statement of actuarial opinion.

II. FISCAL ANALYSIS SECTION

This section of the actuarial note pertains to fiscal costs or savings associated with the retirement systems (Table A), with OPEB (Table B), and with other fiscal costs or savings associated with government entities not associated with either the retirement systems or OPEB (Table C). Fiscal costs or savings in Table A include administrative costs associated with the retirement systems and the sponsoring government entities. The total effect of HB 32 on fiscal costs, fiscal savings, or cash flows is presented in Table D.

**A. Estimated Fiscal Impact – Retirement Systems
(Prepared by the LLA)**

1. Narrative

Table A shows the estimated fiscal impact of the proposed legislation on the retirement systems and the government entities that sponsor them. Fiscal costs and savings include both administrative and actuarial costs and savings. A fiscal cost is denoted by "Increase" or a positive number.
