4 §1171.1. Purpose; intent; insurance and R.S. 40:1157.3 not affected

5 The legislature recognizes that confidentiality protection for information
6 related to human immunodeficiency virus (HIV) infection and acquired
7 immunodeficiency syndrome (AIDS) is an essential public health measure. In order
8 to retain the full trust and confidence of persons at risk, the state has an interest both
9 in assuring that HIV test results are not improperly disclosed and in having clear and
10 certain rules for the disclosure of such information. By providing additional
11 protection for the confidentiality of HIV test results, the legislature intends to
12 encourage the expansion of voluntary confidential testing for HIV so that individuals
13 may come forward, learn their health status, make decisions regarding the
14 appropriate treatment, and change behaviors that put them and others at risk of
15 infection. The legislature also recognizes that confidentiality protections can limit
16 the risk of discrimination and the harm to an individual's interest in privacy that
17 unauthorized disclosure of HIV test results can cause. It is not the intent of the
18 legislature to create any new right, right of action, or cause of action or eliminate any
19 right, right of action, or cause of action existing under current law. It is further not
20 the intent of the legislature that this Chapter repeal, amend, or in any way affect the
21 provisions of R.S. 40:1157.3 relative to the ability of a physician or employee of a
22 hospital who may become infected with ~~the human immunodeficiency virus~~ HIV to
23 test the blood of a patient without the patient's consent. It is the intent of the
24 legislature that in the case of a person applying for or already insured under an
25 insurance policy, who will be or has been the subject of a test to determine infection
26 for ~~human immunodeficiency virus (HHV)~~ HIV, all facets of insurers' practices in
