#### Digest of the bill as proposed by the Conference Committee

Proposed law enacts the nurse licensure compact. Proposed law allows Louisiana to join a multi-state compact for nurses to obtain multi-state license privileges to practice in participating compact states to decrease redundancies in the consideration and issuance of nursing licenses and provide opportunity for interstate practice by nurses who meet the uniform licensure requirements.

Proposed law provides that each participating state to the compact adopt similar requirements for criminal background checks, licensure, and education. Proposed law requires verification of licensure information through the coordinated information system and exchange of information regarding discipline and adverse actions by all participating states.

Proposed law requires a nurse leaving his home state to practice in a participating state to comply with the laws of the participating state. Proposed law provides for a home state license and process for changing home state and location of primary residence. Proposed law provides that the home state is responsible for taking adverse action against nurses in violation of practice act requirements, including deactivation of multi-state licensure privileges.

Proposed law establishes the Interstate Commission and grants each participating state a single seat on the commission.

Proposed law provides for gubernatorial appointment, based on a two year rotation, of an appointee from the Louisiana State Board of Nursing and the Louisiana State Board of Practical Nurse Examiners.

Proposed law provides that the Louisiana State Board of Nursing and the Louisiana State Board of Practical Nurse Examiners shall develop a voluntary reporting system in which nurses holding a multi-state license under the nurse licensure compact and who engages in the practice of nursing or licensed practical nursing in Louisiana voluntarily provide their address and other workforce related data as determined by the respective licensing board in properly promulgated rules. Proposed law provide that failure to voluntarily provide this information shall not be a basis for disciplinary action against or restriction of the multi-state license of any nurse or licensed practical nurse.

Proposed law provides that the Louisiana State Board of Nursing and the Louisiana State Board of Practical Nurse Examiners shall develop a reporting system to collect aggregate data from employers on the number and geographic representation of nurses and licensed practical nurses employed in Louisiana who are practicing nursing or licensed practical nursing pursuant to a multi-state license as determined by the respective licensing board in properly promulgated rules.

Proposed law provides that failure of an employer to submit this data to the board shall not be a basis for disciplinary action against or restriction of the multi-state license of any nurse or licensed practical nurse.

Proposed law provides for enforcement and rulemaking authority.

Effective upon signature of the governor or lapse of time for gubernatorial action.
