HEALTH/ACC INSURANCE EN NO IMPACT See Note  
Provides relative to prescription drug pricing. (8/1/18)

Proposed law requires certain health insurance issuers to notify enrollees that they are subject to an excess consumer cost burden when they are charged more for a prescription drug than their insurer pays or would pay after considering drug rebates from the drug manufacturer into the total cost of the drug.

Proposed law requires certain health insurance issuers to certify to the commissioner of insurance that they passed on to the consumer at least 50% of the rebates received from drug manufacturers. Proposed law provides that in making this certification all information given to the commissioner shall be confidential.

Proposed law provides for enforcement against a health insurance issuer's license for failure to comply with proposed law, or providing a false certification. Proposed law exempts the Office of Group Benefits from the proposed law definition of "health insurance issuer."
