

RÉSUMÉ DIGEST

ACT 48 (HB 67)

2018 Regular Session

Bagley

Existing law (R.S. 40:1502) authorizes the governing authority of any fire protection district in DeSoto Parish to establish, assess, and collect a service charge to fund the purchase of fire protection equipment, maintenance, and operation of fire protection facilities and equipment, and obtaining water for fire protection purchases.

Existing law (R.S. 40:1502.16) grants the following additional authority to DeSoto Parish Fire Protection District No. 3:

- (1) Authorizes the district, subject to voter approval, to establish a service charge for each residential or commercial structure. Further provides that the amount of such service charge shall be framed so as to cover and used to pay the costs of fire protection and emergency medical transportation and all emergency services incidental thereto.
- (2) Authorizes the governing authority to use any reasonable means to collect and enforce the collection of such service charges, including the assessor carrying the charges on the tax rolls and the sheriff collecting the charges at the same time and with the same authority as ad valorem taxes are collected. Authorizes the governing authority to compensate the sheriff and assessor for collecting by mutual agreement.
- (3) Authorizes the governing authority to place liens on property for unpaid service charges. Provides that service charge obligations prime all other liens, mortgages, and privileges except liens previously filed for taxes or local and special assessments.
- (4) Authorizes the governing authority to recover unpaid charges, costs of court, and attorney fees by ordinary process in the 42nd Judicial District Court.
- (5) Authorizes the governing authority to provide, by resolution, for interest on the unpaid charges, which shall be paid prior to cancellation of the lien.

New law grants the additional authorities granted by existing law to DeSoto Parish Fire Protection No. 3 to DeSoto Parish Fire Protection District No. 2.

Effective August 1, 2018.
