HB 320 Original

2019 Regular Session

Simon

Abstract: Provides for student access to applied behavior analysis providers in schools.

Present law prohibits a public school governing authority from denying student access to behavioral health service providers at school during school hours if requested by the student's parent or legal guardian. Requires such governing authorities to adopt policies to implement present law that include requirements for providers relative to liability insurance coverage, criminal background checks, compliance with students' specific education, behavior, or health plans, reporting students' progress, submission of behavioral health evaluations by parents, and other specified matters. Defines "behavioral health service provider" and other terms for purposes of present law.

Proposed law adds "applied behavior analysis providers" to present law definition of "behavioral health service provider" in order to allow access to such providers for students in school upon the parent's request.

In addition, proposed law:

- (1) Requires public school governing authorities to make their policies available to the public.
- (2) Provides that behavioral health evaluations include recommendations for applied behavior analysis services.
- (3) Provides that present law and proposed law shall not supercede present law relative to the licensing of behavioral health services providers or any regulation of the La. Dept. of Health related thereto or present law relative to the practice of behavior analysts.

Proposed law otherwise retains present law.

(Amends R.S. 17:173(A)(2)(intro. para.), (B), and (C))
