Provides relative to educational facilities improvement districts

Present law creates educational facilities improvement districts in 27 enumerated school districts with the authority to levy a sales tax of not more than 1%, subject to voter approval, and to issue bonds secured by such tax to aid school districts in the acquisition, construction, and maintenance of facilities, property, and equipment, and generally to assist school boards experiencing financial difficulties regarding capital facilities or other needs. Districts shall have boundaries coterminous with the school district. Provides for the governance of such districts by a board, as determined by the school district, of at least 5 directors; provides for terms, selection of officers, and meetings. Provides that members shall serve without compensation, but may receive reimbursement of expenses. Proposed law creates such improvement districts in each school district statewide.

EXPENDITURE EXPLANATION

There will be an increase in the expenditures of local school boards to the extent an improvement district is established and voters approve additional sales tax for the purposes enumerated in law.

REVENUE EXPLANATION

There will be an increase in the revenues of local school districts to the extent an improvement district is established and voters approve additional sales tax for the purposes enumerated in law. School boards utilize different taxing approaches to build and maintain schools, depending upon the resources and needs of the school district. Currently 27 school boards have the authority to employ an improvement district, although not all utilize this authority to levy a parish-wide tax. It is unknown whether, and to what extent newly authorized school districts will exercise this supplemental taxing power.
