EXPENDITURE EXPLANATION

There will be a one-time, nominal increase to SGF and SGR expenditures for public post-secondary institutions for computer system updates to identify courses utilizing AER and OER and to facilitate the required reporting to LOUIS. Based on information provided by the post-secondary system management boards, these expenditures will be absorbed utilizing existing funding.

Note: The proposed committee amendment removes the requirement for BOR to develop and implement a plan in collaboration with the public post-secondary institutions, resulting in a significant reduction to the anticipated expenditures cited in the Engrossed fiscal note. Should this amendment be adopted, the proposed legislation would no longer meet the requirement for dual referral under Senate Rule 13.5.1.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
