

## RÉSUMÉ DIGEST

**ACT 89 (HB 15)**

**2019 Regular Session**

**Carpenter**

Existing law provides for benefit options for Firefighters' Retirement System members and designated beneficiaries. Such options include providing for a beneficiary to receive retirement benefits after the death of the member.

Prior law authorized a member who was single at the time of retirement but who married and had been married for at least 12 months to select such a benefit option for his spouse.

New law repeals prior law.

Effective August 1, 2019.

(Repeals R.S. 11:2259(B))
