

2020 Regular Session

HOUSE BILL NO. 31

BY REPRESENTATIVE IVEY

RETIREMENT/STATE SYSTEMS: Provides relative to optional retirement plans for members of the Louisiana State Employees' Retirement System

1 AN ACT

2 To amend and reenact R.S. 11:62(5)(introductory paragraph), 102(B)(1) and (3)(a), (C)(2)(a)
3 and (b), (3)(m), (6)(a), (b)(i), (c), and (d), 247(A)(1), (D), and (E), 542(C), and to
4 enact R.S. 11:62(5.1) and 102(C)(3)(n), 102.7, and Chapter 7 of Subtitle II of Title
5 11 of the Louisiana Revised Statutes of 1950, comprised of R.S. 11:1399.1 through
6 1399.11, relative to benefits for public employees whose first employment making
7 them eligible for membership in the Louisiana State Employees Retirement System
8 occurs on or after a date certain; to provide with respect to membership, credits,
9 eligibility, accruals, and benefits of such members; to provide with respect to
10 employee and employer contributions; to provide relative to system assets and
11 liabilities attributable to such members; and to provide for related matters.

12 Notice of intention to introduce this Act has been published
13 as provided by Article X, Section 29(C) of the Constitution
14 of Louisiana.

15 Be it enacted by the Legislature of Louisiana:

16 Section 1. R.S. 11:62(5)(introductory paragraph), 102(B)(1) and (3)(a), (C)(2)(a) and
17 (b), (3)(m), (6)(a), (b)(i), (c), and (d), 247(A)(1), (D), and (E), 542(C) are hereby amended
18 and reenacted and R.S. 11:62(5.1) and 102(C)(3)(n), 102.7, and Chapter 7 of Subtitle II of
19 Title 11 of the Louisiana Revised Statutes of 1950, comprised of R.S. 11:1399.1 through
20 1399.11, are hereby enacted to read as follows:

1 §62. Employee contribution rates established

2 Employee contributions to state and statewide public retirement systems shall
3 be paid at the following rates, except as otherwise provided by law:

4 * * *

5 (5) Louisiana State Employees' Retirement System members in Tier 1:

6 * * *

7 (5.1) Louisiana State Employees' Retirement System members in the hybrid
8 retirement plan - the amount calculated pursuant to R.S. 11:102.7.

9 * * *

10 §102. Employer contributions; determination; state systems

11 * * *

12 B.(1) Except as provided in R.S. 11:102.1, 102.2, 102.3, 102.4, ~~and 102.5,~~
13 and 102.7 and in Paragraph (5) of this Subsection, for each fiscal year, commencing
14 with Fiscal Year 1989-1990, for each of the public retirement systems referenced in
15 Subsection A of this Section, the legislature shall set the required employer
16 contribution rate as follows:

17 (a) ~~for each system or plan~~ For each plan except the hybrid plans, the rate
18 shall be set equal to the actuarially required employer contribution, as determined
19 pursuant to the provisions of this Section, divided by the total projected payroll of
20 all active members of each ~~particular system or~~ such plan for the fiscal year.

21 (b) For the hybrid plans, the rate shall be set equal to the actuarially required
22 employer contribution, as determined under Paragraph (3) of this Subsection, divided
23 by the total projected payroll of all active members of the hybrid plan for the fiscal
24 year.

25 (c) Each entity funding a portion of a member's salary shall also fund the
26 employer's contribution on that portion of the member's salary at the employer
27 contribution rate specified in this Section.

28 * * *

1 (3) With respect to each state public retirement system, the actuarially
2 required employer contribution for each fiscal year, commencing with Fiscal Year
3 1989-1990, shall be that dollar amount equal to the sum of:

4 (a) The employer's normal cost for that fiscal year, computed as of the first
5 of the fiscal year using the system's actuarial funding method as specified in R.S.
6 11:22 and taking into account R.S. 11:102.7 and the value of future accumulated
7 employee contributions and interest thereon, such employer's normal cost rate
8 multiplied by the total projected payroll for all active members to the middle of that
9 fiscal year. For the Louisiana State Employees' Retirement System, effective for the
10 June 30, 2010, system valuation and beginning with Fiscal Year 2011-2012, the
11 normal cost shall be determined in accordance with Subsection C of this Section.
12 For the Teachers' Retirement System of Louisiana, effective for the June 30, 2011,
13 system valuation and beginning with Fiscal Year 2012-2013, the normal cost shall
14 be determined in accordance with Subsection D of this Section.

15 * * *

16 C.

17 * * *

18 (2)(a) Except as provided in Subparagraph (b) of this Paragraph and in R.S.
19 11:102.5, effective July 1, 2004, and beginning with Fiscal Year 1998-1999, the
20 amortization period for the changes, gains, or losses of the system provided in Items
21 (B)(3)(d)(i) through (iv) of this Section shall be thirty years from the year in which
22 the change, gain, or loss occurred. The outstanding balances of amortization bases
23 established pursuant to Items (B)(3)(d)(i) through (iv) of this Section before Fiscal
24 Year 1998-1999, shall be amortized as a level-dollar amount from July 1, 2004,
25 through June 30, 2029. Beginning with Fiscal Year 2003-2004, and for each fiscal
26 year thereafter, the outstanding balances of amortization bases established pursuant
27 to Items (B)(3)(d)(i) through (iv) of this Section shall be amortized as a level-dollar
28 amount. Effective for the June 30, 2010 system valuation and beginning with Fiscal
29 Year 2011-2012, amortization payments for changes in actuarial liability shall be

1 determined in accordance with this Subsection. Beginning with Fiscal Year 2021-
2 2022, the outstanding balances of amortization bases established pursuant to
3 (B)(3)(d)(i) through (iv) of this Section shall also be calculated in accordance with
4 the provisions of R.S. 11:102.7.

5 (b) Notwithstanding the provisions of Subparagraph (a) of this Paragraph,
6 effective for the June thirtieth valuation following the fiscal year in which the system
7 first attains a funded percentage of seventy or more pursuant to R.S. 11:542 and for
8 every year thereafter, the amortization period for the changes, gains, or losses of the
9 system provided in Items (B)(3)(d)(i) through (iv) of this Section occurring in that
10 year or thereafter shall be twenty years from the year in which the change, gain, or
11 loss occurred. Beginning with Fiscal Year 2021-2022, the outstanding balances of
12 amortization bases established pursuant to (B)(3)(d)(i) through (iv) of this Section
13 shall also be calculated in accordance with the provisions of R.S. 11:102.7.

14 * * *

15 (3) The provisions of this Paragraph and Paragraphs (4) through (9) of this
16 Subsection shall be effective for the June 30, 2010 system valuation and beginning
17 Fiscal Year 2011-2012. For purposes of this Subsection, "plan" or "plans" shall
18 mean a subgroup within the system characterized by the following employee
19 classifications:

20 * * *

21 (m) Members of the hybrid plan.

22 (n) Any other specialty retirement plan provided for a subgroup of system
23 members. If the legislation enacting such a plan is silent as to the application of this
24 Subsection, the Public Retirement Systems' Actuarial Committee shall provide for
25 the application to such plan.

26 * * *

27 (6) For each plan referenced in Paragraph (3) of this Subsection, the
28 legislature shall set the required employer contribution rate equal to the sum of the
29 following:

1 (a) The particularized normal cost rate. The normal cost rate for each fiscal
2 year shall be the employer's normal cost for the plan computed by applying the
3 method specified in R.S. 11:102(B)(1) and (3)(a) and R.S. 11:102.7 to the plan.

4 (b) The shared unfunded accrued liability rate.

5 (i) Except as provided in Item (ii) of this Subparagraph, a single rate shall
6 be computed for each fiscal year, applicable to all plans for actuarial changes, gains,
7 and losses existing on June 30, 2010, or occurring thereafter, including experience
8 and investment gains and losses, which are independent of the existence of the plans
9 listed in Paragraph (3) of this Subsection, the payment and rate therefor shall be
10 calculated as provided in this Subsection and Paragraphs (B)(1) and (3) of this
11 Section and R.S. 11:102.7.

12 * * *

13 (c) The particularized unfunded accrued liability rate. For actuarial changes,
14 gains, and losses, excluding experience and investment gains and losses, first
15 recognized in the June 30, 2010 valuation or in any later valuation, attributable to
16 one or more, but not all, plans listed in Paragraph (3) of this Subsection or to some
17 new plan or plans, created, implemented, or enacted after July 1, 2010, a
18 particularized contribution rate shall be calculated as provided in this Subsection and
19 Paragraphs (B)(1) and (3) of this Section and R.S. 11:102.7.

20 (d) The shared gross employer contribution rate difference. The gross
21 employer contribution rate difference shall be the difference between the minimum
22 gross employer contribution rate provided in Paragraph (B)(5) of this Section and the
23 aggregate employer contribution rate calculated pursuant to the provisions of
24 Subsection B of this Section and R.S. 11:102.7.

25 * * *

26 §102.7. Contribution rates for hybrid plan members

27 A. For the purposes of this Section, the following terms shall have the
28 following meanings unless another meaning is clearly required by context:

1 (1) "New member" shall mean any member who has opted into the hybrid
2 plan.

3 (2) "Tier" shall mean any formal subset of new members classified by
4 similar benefit provisions.

5 B. Notwithstanding any provision of law to the contrary, new members shall
6 share the following costs equally with their employer:

7 (1) The normal cost of the new member's benefit, which shall include the
8 total monthly credit to the new member's defined contribution account.

9 (2) Any change in the new member's normal cost.

10 (3) The proportional share of the amortization cost for liability schedules
11 created on or after July 1, 2021.

12 C. For each tier, the dollar amount of costs provided for in Subsection B of
13 this Section shall be calculated each year by adding together the following:

14 (1) The normal cost for the new members in such tier computed at the
15 interest rate specified in R.S. 11:1399.5.

16 (2) That fiscal year's payment, computed as of the first of that fiscal year and
17 projected to the middle of that fiscal year at the interest rate specified in R.S.
18 11:1399.5 and using the amortization method specified in R.S. 11:102, 102.1, 102.2,
19 102.3, and 102.4, and this Section, necessary to amortize that portion of any
20 unfunded accrued liability created on or after July 1, 2020, that is attributable to
21 members in the tier.

22 (3) That fiscal year's payment, computed as of the first of that fiscal year and
23 projected to the middle of that fiscal year at the interest rate specified in R.S.
24 11:1399.5, necessary to amortize the prior year's over or underpayment of employee
25 contributions as a level dollar amount over a period of five years.

26 D. Employee contributions for each tier shall be calculated each year by
27 dividing one half of the dollar amount total from Subsection C of this Section by the
28 projected payroll of all new members in the tier.

1 E. Employer contributions shall be calculated as otherwise provided in R.S.

2 11:102.

3 * * *

4 §247. Automatic cost-of-living adjustments

5 A.(1) Upon application for retirement or participation in the Deferred
6 Retirement Option Plan, any member of a ~~state or statewide retirement system~~ or any
7 member of a state retirement system who is not a member of the hybrid plan, may
8 elect to receive an actuarially reduced retirement allowance plus an annual two and
9 one-half percent cost-of-living adjustment. Such an election shall be irrevocable
10 after the effective date of retirement or after the beginning date of participation in the
11 Deferred Retirement Option Plan. The retirement allowance together with the cost-
12 of-living adjustment shall be certified by the system actuary to be actuarially
13 equivalent to the member's maximum or optional retirement allowance and shall be
14 approved by the system's board of trustees.

15 * * *

16 D. Upon application for retirement or participation in the Deferred
17 Retirement Option Plan and upon certifying that he is contemplating availing himself
18 of the provisions of this Section, a an eligible member of a ~~state or statewide~~
19 ~~retirement system~~ may request that the system provide actuarial estimates of the
20 benefits that such member would receive pursuant to Subsection A of this Section
21 for the fifth, tenth, and fifteenth year following the member's anticipated retirement
22 date. The system shall provide such actuarial estimates to the member upon request.

23 E. This Section shall not be applicable to recipients of disability retirement
24 benefits pursuant to R.S. 11:461 et seq. All other eligible persons receiving
25 disability retirement benefits pursuant to the provisions of this Title shall be eligible
26 to elect this retirement option upon conversion to a service retirement, if applicable,
27 under the provisions of this Title for each state or statewide retirement system.

28 * * *

CODING: Words in ~~struck through~~ type are deletions from existing law; words underscored are additions.

1 §542. Experience account

2 * * *

3 C.(1) In accordance with the provisions of this Section, the board of trustees
4 may recommend to the president of the Senate and the speaker of the House of
5 Representatives that the system be permitted to grant a permanent benefit increase
6 to retirees who are not members of the hybrid plan and to; survivors; and
7 beneficiaries of such members whenever the conditions in this Section are satisfied.
8 The board of trustees shall not grant a permanent benefit increase unless such
9 permanent benefit increase has been approved by the legislature.

10 (2) No member of the hybrid plan shall be eligible for a benefit adjustment
11 pursuant to the provisions of this Section nor shall any beneficiary who receives
12 benefits based on the death or disability of such a member be eligible for a benefit
13 adjustment pursuant to the provisions of this Section.

14 * * *

15 CHAPTER 7. HYBRID PLAN FOR THE LOUISIANA STATE EMPLOYEES'
16 RETIREMENT SYSTEM

17 §1399.1. Hybrid plan creation

18 A. There is hereby created within the Louisiana State Employees' Retirement
19 System a hybrid plan.

20 B. The provisions of the system Chapter 1 of this Subtitle shall be known as
21 "Tier 1".

22 C. The defined contribution portion of the hybrid plan shall be administered
23 by the Department of the Treasury.

24 §1399.2. Definitions

25 The following terms shall have the following meanings, unless another
26 meaning is clearly required by context. Terms not otherwise defined shall have the
27 same meaning as in Tier 1.

28 (1) "Hazardous duty member" shall mean a member of the Louisiana State
29 Employees' Retirement System who, but for membership in the hybrid plan would

1 qualify for membership in the Hazardous Duty Services Plan pursuant to R.S.
2 11:612.

3 (2) "Particularized unfunded accrued liability" shall mean liability applicable
4 to actuarial changes, gains, and losses, excluding experience and investment gains
5 and losses, first recognized in the June 30, 2021, valuation or in any later valuation,
6 attributable to one or more, but not all, plans in a system.

7 (3) "Rank-and-file member" shall mean any member of the hybrid plan,
8 including any judge, court officer, governor, lieutenant governor, clerk or
9 sergeant-at-arms of the House of Representatives, secretary or sergeant-at-arms of
10 the Senate, or state treasurer, who would not qualify as a member of the Hazardous
11 Duty Services Plan.

12 (4) "Shared unfunded accrued liability" shall mean liability applicable to all
13 plans in a system for actuarial changes, gains, and losses, including experience and
14 investment gains and losses, which are independent of the existence of the individual
15 plans within a system.

16 §1399.3. Hybrid plan membership

17 A. Members of the Louisiana State Employees' Retirement System whose
18 first employment making them eligible for membership in the system occurs on or
19 after July 1, 2021, may become members of the hybrid plan. Members in the hybrid
20 plan shall participate simultaneously in a defined benefit plan and in a defined
21 contribution plan.

22 B. If a retired member of the hybrid plan returns to active service in a
23 position covered by the system from which he is receiving benefits, payment of his
24 defined benefit retirement shall cease during his period of reemployment. However,
25 such reemployment shall have no effect on payments received under the defined
26 contribution component of the plan.

27 §1399.4. Contributions and credits

28 A.(1) Each member shall contribute to the retirement system the amount
29 calculated pursuant to R.S. 11:102.7.

1 (2) Employer contributions to each retirement system shall be as provided
2 in R.S. 11:102 and 102.7.

3 B.(1) A rank-and-file hybrid plan member's defined contribution account
4 shall be credited with an amount equal to ten percent of pay monthly.

5 (2) A hazardous duty hybrid plan member's defined contribution account
6 shall be credited with an amount equal to twelve percent of pay monthly.

7 (3) Every active member of the hybrid plan shall also accrue service credit
8 in the defined benefit portion of the plan each month as provided in R.S. 11:1399.5.

9 C.(1) With regards to the defined contribution portion of the hybrid plan,
10 upon receipt of employee and employer contributions, the system shall promptly
11 transfer to the Department of the Treasury an amount equal to one half of the normal
12 cost percentage calculated pursuant to R.S. 11:102.7, which shall be credited to the
13 employee's account.

14 (2) With regards to the defined benefit portion of the hybrid plan, the
15 remainder of the employee and employer contributions shall be applied to the
16 defined benefit normal cost and unfunded accrued liability costs as provided in R.S.
17 11:102.7.

18 §1399.5. Defined benefit portion

19 A.(1) Defined benefits in the plan shall accrue at the following rates for each
20 year of creditable service in the plan:

21 (a) For a rank-and-file member – one percent of the member's average
22 compensation.

23 (b) For a hazardous duty member – one and one-third percent of the
24 member's average compensation.

25 (2) A member's accrued defined benefit shall not exceed one hundred percent
26 of his average compensation.

27 B. The interest rate used to value normal cost and accrued liabilities
28 attributable to the plan shall be six percent. The provisions of this Subsection shall

1 apply to particularized liabilities of the plan as well as to any portions of shared
2 unfunded accrued liability attributable to the hybrid plan.

3 C.(1) Upon retirement, a hybrid plan member shall receive a maximum
4 defined benefit retirement allowance from his retirement system that is equivalent
5 to the percentage of his average compensation accrued each year for his creditable
6 service in the plan pursuant to Paragraph (A)(1) of this Section multiplied by his
7 years of creditable service in the plan.

8 (2) Notwithstanding the provisions of Paragraph (1) of this Subsection, upon
9 retirement, a hybrid plan member may elect to receive his defined benefit in a
10 retirement allowance payable throughout his life or may elect to receive the actuarial
11 equivalent of his retirement allowance in a reduced retirement allowance payable
12 throughout life pursuant to any retirement option available to members of Tier 1 of
13 his system, including initial lump sum payment options.

14 (3) Notwithstanding the provisions of Paragraph (2) of this Subsection, no
15 member of the hybrid plan shall be eligible to participate in any deferred retirement
16 option plan or program or any similar retirement option that requires continued
17 employment for participation, nor shall such a member be eligible to participate in
18 any back-deferred retirement option plan or program.

19 §1399.6. Defined contribution portion

20 A.(1) Each member shall have a defined contribution plan account
21 maintained and administered by a qualified private provider as determined pursuant
22 to Subsection B of this Section.

23 (2) Each member may elect to contribute extra amounts to his defined
24 contribution account, up to applicable Internal Revenue Code limits on elective
25 deferrals.

26 B.(1) The Department of the Treasury shall select no more than three
27 companies from which contracts will be purchased for the provision of defined
28 contribution accounts for employees. In setting the criteria for this selection, the
29 Department of the Treasury shall consider, among other things, the following:

1 (a) The portability of the contracts offered or to be offered by the company,
2 based on the number of states in which the designated company provides contracts
3 under similar plans.

4 (b) The nature and extent of the rights and benefits to be provided by the
5 contracts for participating employees and their beneficiaries.

6 (c) The relation of the rights and benefits to the amount of the contributions
7 to be made pursuant to the provisions of this Chapter.

8 (d) The suitability of the rights and benefits to the needs and interests of
9 participating employees.

10 (e) The ability of the designated company or companies to provide the rights
11 and benefits under such contracts.

12 (2) The Department of the Treasury shall select from the funds offered by
13 each provider a minimum of ten and a maximum of twenty-five funds in a range of
14 risk and return profiles that will be offered to its members. At least one of the
15 investment options selected by the Department of the Treasury from each provider
16 shall be a fund with a guaranteed rate of return.

17 C. Upon retirement, a minimum of seventy-five percent of the value of the
18 member's account balance shall be annuitized by the company maintaining the
19 account. The member shall select the percentage of his account balance to be
20 annuitized. A member who does not elect to annuitize his entire account balance
21 may withdraw some or all of his remaining account balance as: one or more lump-
22 sum payments; a trustee-to-trustee, single-sum transfer between qualified plans; or
23 a payment made directly to an individual retirement account.

24 D. Upon death or retirement, whichever occurs first, a member with at least
25 five years of participation in the defined contribution plan shall have a vested right
26 to all employer contributions made to his account and to interest on the employee
27 and employer contributions. The rights of members terminating service prior to
28 retirement shall be as follows:

1 (1) In the event of termination prior to attaining five years of participation
2 in the defined contribution plan, the member shall be entitled to a return of all
3 employee contributions, without interest thereon. All interest and employer
4 contributions shall be forfeited to the member's retirement system.

5 (2) In the event of termination after a member attains five years of
6 participation in the defined contribution plan but prior to retirement, the member
7 shall leave his account balance with the system and exercise the rights granted
8 pursuant to Subsection C of this Section upon attaining the first age at which he may
9 begin to draw an unreduced retirement benefit.

10 E. A member who has not terminated employment or retired may not
11 withdraw funds from his defined contribution account prior to retirement or borrow
12 against such funds.

13 F. Interest shall be credited on any balance in the member's account as long
14 as there is a balance in the account.

15 §1399.7. Retirement eligibility

16 Retirement eligibility shall be as follows:

17 (1) A rank-and-file member shall be eligible for retirement if he has:

18 (a) Five years or more of service, at age sixty-five or thereafter.

19 (b) Twenty years of service credit at age fifty-five, exclusive of military
20 service and unused annual and sick leave, but any person retiring under this
21 Subparagraph shall have his defined benefit, inclusive of military service credit and
22 allowable unused annual and sick leave, actuarially reduced from the earliest age that
23 he would normally become eligible for a regular retirement benefit under
24 Subparagraph (a) of this Paragraph.

25 (2) A hazardous duty member shall be eligible for retirement if he has:

26 (a) Twelve years or more of service, at age fifty-seven or thereafter.

27 (b) Twenty years of service credit at any age, exclusive of military service
28 and unused annual and sick leave, but any person retiring under this Subparagraph
29 shall have his defined benefit, inclusive of military service credit and allowable

1 unused annual and sick leave, actuarially reduced from the earliest age that he would
2 normally become eligible for a regular retirement benefit under Subparagraph (a) of
3 this Paragraph.

4 §1399.8. Disability and death benefits

5 A.(1) The defined benefit plan disability and death benefits shall be as
6 otherwise determined and provided in Tier 1; however, the accrual rate used to
7 calculate any such benefits shall not exceed the member's accrual rate in the hybrid
8 plan.

9 (2) If the hybrid plan member has not met the eligibility requirements for
10 survivors' benefits in the applicable Tier 1 plan, the system shall give his designated
11 beneficiary or his estate the option to receive the portion of the account balance the
12 member would otherwise have been entitled to as a lump-sum payment; a trustee-to-
13 trustee, single-sum transfer between qualified plans; or a payment made directly to
14 an individual retirement account.

15 B. A member receiving disability benefits based on defined benefit plan
16 provisions shall be entitled to access to his defined contribution account as provided
17 in R.S. 11:1399.6(C), including interest on contributions as provided in R.S.
18 11:1399.6(D).

19 C. If distributed as death benefits, a deceased member's defined contribution
20 account shall be divided as follows:

21 (1) If there is a surviving spouse and no minor children, the spouse shall
22 have the same options with respect to the account balance that the member would
23 have had.

24 (2) If there is a surviving spouse and at least one minor child or child with
25 a disability, the surviving spouse shall receive an annuity based on one-half of the
26 account balance and the other half of the account balance shall be divided on a pro
27 rata basis between the remaining minor children and children with a disability and
28 annuitized.

1 (3) If there is no surviving spouse but there is at least one minor child or
2 child with a disability, the account shall be divided on a pro rata basis between the
3 minor children and children with a disability and annuitized.

4 D. If any disability retiree of the hybrid retirement plan who is under his
5 normal retirement age is restored to active service, his defined benefit retirement
6 allowance and ability to access his defined contribution account shall cease, he shall
7 again become a member of the retirement system, and he shall contribute thereafter
8 at the current rate in effect at the time he is restored to service, and if he contributes
9 for at least three years after restoration to active service, the period of time on
10 disability shall be counted as accredited service for purposes of establishing
11 retirement eligibility in the defined benefit portion of the plan, but not for
12 computation of benefits. Any prior service certificate on which his service was
13 computed at the time of his retirement shall be restored to full force and effect and,
14 in addition, upon his subsequent retirement he shall be credited with all his service
15 as a member. The remaining value of any annuity paid to the rehabilitated member
16 from his defined contribution account balance shall be converted back to a lump sum
17 and deposited into the member's defined contribution account. Contributions to the
18 defined contribution account shall resume and be added to the balance in the account
19 at the time of restoration to active service.

20 §1399.9. Cost-of-living adjustments on defined benefit

21 A.(1) Each qualifying retiree and beneficiary of a hybrid plan member shall
22 have the defined benefit portion of his benefit increased permanently on July first in
23 each odd-numbered calendar year. The amount of the increase shall be the lesser of:

24 (a) Two percent of the benefit amount.

25 (b) An amount equal to the consumer price index for all urban consumers for
26 the South as calculated by the United States Department of Labor, Bureau of Labor
27 Statistics, for the twelve-month period ending on the May thirtieth immediately
28 preceding the payment of the benefit increase.

1 (2) To be eligible for the permanent benefit increases provided in this

2 Subsection, a retiree:

3 (a) Shall have been separated from employment and receiving a benefit for
4 at least one year.

5 (b) Shall have attained his normal retirement age.

6 (3) A nonretiree survivor or beneficiary shall be eligible for the permanent
7 benefit increases provided in this Section:

8 (a) If the benefits have been received by the retiree or the beneficiary or both
9 combined for at least one year.

10 (b) If the retiree would have attained age sixty-five.

11 (4) The provisions of Subparagraph (3)(b) of this Subsection shall not apply
12 to any person who receives benefits based on the death of a disability retiree.

13 B. Each permanent benefit increase provided pursuant to this Section shall
14 be payable based on the amount, not to exceed fifty thousand dollars, of the
15 recipient's annual benefit.

16 C. Each time the system actuary performs an experience study, he shall also
17 evaluate whether and to what extent contributions required to fund the benefits
18 provided for in this Section meet or exceed such liabilities. This assessment shall be
19 based on stochastic modeling.

20 §1399.10. Commingling of assets and accounting

21 Assets of the defined benefits portion of a hybrid plan shall be commingled
22 with assets of the other system plans for investment purposes. Assets of this plan
23 shall be available to fund benefits of all plans within the system, including this plan.
24 A fictitious account for this tier of benefits shall be established for the purposes of
25 accounting for assets and liabilities of this plan and determining funding
26 requirements of this plan.

1 §1399.11. Applicability

2 The provisions of the applicable Tier 1 system or plan shall apply to the

3 hybrid plan for any matter on which this Chapter is silent. In case of any conflict

4 between the provisions of Tier 1 and this Chapter, this Chapter shall prevail.

5 Section 2. The cost of this Act, if any, shall be funded with additional employer

6 contributions in compliance with Article X, Section 29(F) of the Constitution of Louisiana.

DIGEST

The digest printed below was prepared by House Legislative Services. It constitutes no part of the legislative instrument. The keyword, one-liner, abstract, and digest do not constitute part of the law or proof or indicia of legislative intent. [R.S. 1:13(B) and 24:177(E)]

HB 31 Original 2020 Regular Session Ivey

Abstract: Establishes an optional hybrid retirement plan for members of the La. State Employees' Retirement System (LASERS) whose first employment making them eligible for membership in a state system occurred on or after July 1, 2021.

Present law establishes four state retirement systems – the La. State Employees' Retirement System, the Teachers' Retirement System of La., the La. School Employees' Retirement System, and the State Police Retirement System – and provides a defined benefit retirement plan for members of each system. Proposed law establishes an optional hybrid retirement plan (Hybrid Plan) – consisting of a combination of a defined benefit pension and a defined contribution (DC) account – that is available to members of LASERS whose first employment making them eligible for membership in a state system occurs on or after July 1, 2021 (hereafter referred to as "new members").

Cost Sharing

Present law establishes a fixed rate at which members must contribute to each state and statewide retirement system. Proposed law retains present law for those who are not new members. Further establishes a floating rate for new members based on an equal division of the cost of the plan for new members.

Present law establishes the formula by which employer contribution rates are calculated each year. Generally requires the employer to fund 100% of unfunded accrued liability (UAL) payments. Proposed law requires new members who opt into the Hybrid Plan to split equally the cost of their benefit accruals (the "Normal Cost") and the cost of any UAL attributable to their plan.

COLAs

Present law provides a mechanism for paying cost-of-living adjustments (COLAs) to retirees of state retirement systems using investment gains over and above certain pre-determined levels. Proposed law retains present law for those who are not new members. For new members who opt into the Hybrid Plan, proposed law establishes a pre-funded COLA mechanism, the cost of which is split between new members and employers. Upon retirement (or death), in every odd-numbered year, a qualifying new member or beneficiary of such will receive a COLA equal to the lesser of:

- (1) 2%.
- (2) The CPI-U for the South as calculated by the U.S. Dept. of Labor, Bureau of Labor Statistics, for the 12-month period ending on the May 30th immediately preceding the payment of the benefit increase.

Further provides that such COLA shall only be paid on the first \$50,000 of a retiree or beneficiary's benefit amount.

Proposed law establishes the following qualifications for a COLA:

- (1) Any retiree who has received a benefit for at least one year and who has attained at least his normal retirement age.
- (2) Any nonretiree beneficiary who has received a benefit for at least one year (aggregated with any time the deceased member may have received a benefit) if the deceased member would have attained his normal retirement age.
- (3) Any disability retiree or any beneficiary who receives benefits based on the death of a disability retiree if benefits have been received for at least one year.

Regular Retirement Benefits

Defined Benefit Plan

Present law provides a retirement benefit that combines average compensation with a percentage multiplier for each year of service. This calculation can be rendered as:

Accrual Rate x Years of Service x Average Compensation

Present law for rank-and-file members of LASERS provides an accrual rate of 2.5% of average compensation for each year of a member's service. Proposed law retains present law for those who are not Hybrid Plan members. Further establishes a 1% accrual rate for regular retirement benefit calculations for Hybrid Plan members.

Present law for the Hazardous Duty Services Plan (hereafter "Haz. Duty") members provides an accrual rate of 3.33% of average compensation for each year of such member's service. Proposed law retains present law for those who are not new members. Further establishes a 1.33% accrual rate for regular retirement benefit calculations for new members who opt into the Hybrid Plan.

Present law establishes a five-year vesting period for the right to a benefit from the defined benefit plan. Proposed law retains present law for all members, regardless of the date of hire.

DC Plan

Proposed law establishes a DC account for each new member who opts into the Hybrid Plan. Requires the Dept. of the Treasury (department) to select up to three third-party providers who will administer the DC accounts for new members. Establishes criteria for the department to use in evaluating potential third-party providers. Requires the department to select from the funds offered by each provider a minimum of 10 and a maximum of 25 fund options in a range of risk and return profiles that will be offered to new members in the DC plan. Requires at least one investment option to be a fund with a guaranteed rate of return.

Proposed law provides that new member DC accounts for rank-and-file members of LASERS shall be credited with 10% of pay each month. Further provides that new member DC accounts for Haz. Duty members shall be credited with 12% of pay each month.

Proposed law establishes a five-year vesting period for the right to employer contributions and interest credited to the new member's account. The new member's right to access interest on employee and employer contributions made to the DC account is triggered by the member's retirement (regular or disability) or death, whichever occurs first.

Proposed law provides that if a member terminates employment prior to attaining five years of participation in the DC plan, the employee is entitled to a return of all employee contributions, without interest. All interest and employer contributions will be forfeited to the system.

Proposed law further provides that if a member terminates employment after attaining five years of participation in the DC plan, but, prior to retirement, he must leave his account balance with the third-party provider until the first age at which he may begin to draw an unreduced retirement benefit and may then exercise all options in proposed law for members who retire from the system.

Proposed law provides that, upon retirement, a member must annuitize at least 75% of his DC account balance with the third-party provider. The member may choose the percentage of his account, up to 25%, that will not be annuitized. Any portion of the account that is not annuitized may be withdrawn in one or more lump-sum payments or rolled to another qualified retirement account, such as an IRA.

Proposed law prohibits a new member who has not terminated employment or retired from withdrawing funds from his DC account or borrowing against such funds.

Retirement Eligibility

Present law for rank-and-file members of LASERS provides that a member hired on or after July 1, 2015, is eligible for regular retirement if he has:

- (1) Five years of service at age 62 or thereafter.
- (2) 20 years of service at any age, actuarially reduced.

Proposed law provides that a rank-and-file member is eligible for regular retirement if he has:

- (1) Five years of service at age 65 or thereafter.
- (2) 20 years of service at age 55 or thereafter, actuarially reduced.

Present law for the Haz. Duty members of LASERS provides that a member hired on or after July 1, 2015, is eligible for regular retirement if he has:

- (1) 12 years of service at age 55 or thereafter.
- (2) 25 years of service at any age.
- (3) 20 years of service at any age, actuarially reduced.

Proposed law provides that a Haz. Duty member is eligible for regular retirement if he has:

- (1) 12 years of service at age 57 or thereafter.

- (2) 20 years of service at any age, actuarially reduced.

Disability & Death Benefits

Proposed law provides that disability and death benefits for new members shall be calculated as though the member had been hired prior to July 1, 2021 (Tier 1); however, restricts the accrual rate used in any such calculation to the hybrid plan rate applicable to the member.

Proposed law provides that if the new member did not meet the eligibility requirements for the applicable Tier 1 survivors benefits, his designated beneficiary or his estate shall receive the DC account balance the member would otherwise have been entitled to as a lump-sum or a transfer to another qualified retirement plan.

Proposed law provides that if a member does meet the Tier 1 survivor benefit qualifications, his DC account shall be divided as follows:

- (1) If there is a surviving spouse and at least one minor child or child with a disability, the surviving spouse shall receive an annuity based on one half of the account balance. The other half of the account balance shall be divided pro rata between the minor children and children with disabilities and annuitized.
- (2) If there is no surviving spouse but there is at least one minor child or child with a disability, the account shall be divided pro rata between the minor children and children with disabilities and annuitized.

Proposed law provides that a member receiving disability benefits from the defined benefit plan may access and annuitize his DC account, including employer contributions and all interest.

Proposed law provides that if a disability retiree who is under his normal retirement age is restored to active service, his disability benefit payments and access to the balance of his DC account shall cease. He shall resume contributions to the retirement system and if he continues in service for at least three years after restoration, the period of time spent on disability shall be counted toward normal retirement eligibility, but will not count towards calculation of benefits. Requires the remaining value of any annuity based on the DC account balance to be converted back into a lump sum and deposited into the member's account. Further provides that contributions to the member's DC account shall resume and be added to the balance in the account at the time he is restored to active service.

Applicability of Tier 1 Provisions

Proposed law provides that the provisions of Tier 1 that the member would have been enrolled in but for his date of hire shall apply in any case where the provisions of the Hybrid Plan are silent.

(Amends R.S. 11:62(5)(intro. para.), 102(B)(1) and (3)(a), (C)(2)(a) and (b), (3)(m), (6)(a), (b)(i), (c), and (d), 247(A)(1), (D), and (E), 542(C); Adds R.S. 11:62(5.1) and 102(C)(3)(n), 102.7, and 1399.1 - 1399.11)
