DIGEST

SB 179 Original

2020 Regular Session

Johns

Proposed law defines a "short-term rental dwelling" as a one- or two-family dwelling that is available for rental for a period of not more than 29 consecutive days per rental transaction, and is marketed by a 3rd party paid to advertise the rental of such dwelling.

Proposed law requires an owner of a new or existing short-term rental dwelling to electronically register the short-term rental dwelling with the office of state fire marshal.

Proposed law authorizes the owner to submit an initial registration with a repeating registration renewal in five-year intervals or make an initial registration with an annual renewal thereafter.

Proposed law requires the electronic registration to take place within 15 days of the short-term rental dwelling being advertised or marketed for rental, with the registration including but not limited to the owner's submission of information with respect to the following:

- (1) The number of sleeping rooms located within the short-term rental dwelling.
- (2) An attestation that the following life safety features are present within the short-term rental dwelling:
 - (a) Smoke alarms.
 - (b) Carbon monoxide detectors.
 - (c) Unobstructed exits.
 - (d) Fire extinguishers.
 - (e) A map posted on the back of the main entry door indicating where the exits are located in case of a fire or emergency.

Proposed law authorizes the state fire marshal to consider practical difficulties and unreasonable economic hardships before applying the requirements of proposed law. In a case of practical difficulty or unreasonable economic hardship, the state fire marshal may, upon appeal of the owner, allow alternative arrangements provided a minimum acceptable level of life safety is achieved to the satisfaction of the state fire marshal.

Proposed law provides that an owner who fails to register his short-term rental dwelling shall be subject to the following penalties:

- (1) For the first violation, a warning letter.
- (2) For a second violation, a civil penalty not to exceed five hundred dollars.
- (3) For a third and each subsequent violation, a civil penalty not to exceed one thousand dollars.

Proposed law provides that such penalties imposed by the state fire marshal may be appealed in accordance within the provisions of the APA.

Proposed law requires that all monies collected from a fine imposed upon any owner pursuant to the provisions of proposed law be made payable to the office of state fire marshal, code enforcement and building safety.

Proposed law provides that upon a complaint of any person or upon his own initiative when he deems necessary, the state fire marshal or any of his authorized representatives may conduct an investigation and inspection of a short-term rental dwelling with the inspection being completed within 15 business days after it commences.

Proposed law requires the inspecting officer, if he finds the short-term rental dwelling is not in compliance, to order the dangerous materials removed or the condition of the premises remedied.

Proposed law prohibits the owner from renting the short-term rental dwelling for use until the state fire marshal certifies the hazardous conditions have been eliminated.

Proposed law requires the certification to be determined within 15 business days after receiving written notice from the owner that the hazardous conditions have been eliminated.

Proposed law does not affect or preempt any zoning ordinance of any local governmental subdivision, expand any zoning ordinance with respect to residential property, or preempt any existing safety code.

Proposed law requires the state fire marshal to administer and enforce proposed law and authorizes him to adopt any rule or regulation deemed necessary for administration and enforcement pursuant to the APA.

Effective January 1, 2021.

(Amends R.S. 40:1573(3) and (4); adds R.S. 40:1573(5) and 1580.2)
