

## RÉSUMÉ DIGEST

ACT 153 (HB 515)

2020 Regular Session

Wright

Existing law provides procedures for the adoption, amendment, and repeal of rules by executive branch agencies and for public participation and legislative oversight regarding such rule changes. Requires an agency, prior to taking action on a rule, to give notice of its intended action at least 90 days prior to taking the action. Requires that the notice of intent include a statement or description of rule's substance, statements of the fiscal and economic impact, and other specific items.

Existing law provides that a preamble explains the basis and rationale for the intended action and summarizes the information and data supporting the intended action.

Prior law required that the notice of intent include a statement indicating whether the agency prepared a preamble and provide information concerning how the preamble could be obtained.

New law requires that the notice of intent include the preamble.

Existing law also requires that the notice of intent include a statement of the terms or substance of the action or a description of the subjects and issues involved.

Effective Aug. 1, 2020.

(Amends R.S. 49:953(1)(a)(vii))
