

necessary to increase his monthly benefit to \$1,450.

Present law provides several payment options for retirement benefits, which a retiree may choose if he wishes benefits to continue being paid to a designated beneficiary upon his death. Such options will reduce the amount of the monthly benefit that a retiree receives during his lifetime, and may in turn reduce the amount of the monthly benefit that his beneficiary receives upon his death.

Proposed law provides that if any beneficiary to whom proposed law applies is receiving a monthly benefit based upon an optional allowance pursuant to present law, which amount is less than that received by the retiree while alive, the amount of the increase payable pursuant to proposed law shall be prorated based upon the option chosen.

Present law generally provides for survivor benefits for certain survivors of deceased members which members died prior to applying for retirement.

Proposed law provides that any unmarried surviving spouse, minor child, or mentally or physically handicapped child, who is receiving a survivor benefit under present law shall receive a benefit increase pursuant to proposed law. Any person who is the sole survivor of such a member shall receive the lesser of \$300 per month or the amount necessary to increase his monthly benefit to \$1,450. If there are multiple persons receiving such survivor benefits, an increase of \$300 per month shall be shared equally among them.

Present law generally provides for an employee experience account from which all LASERS, TRSL, and LSERS cost-of-living adjustments are payable.

Proposed law provides that funding for the benefit increase payable pursuant to proposed law shall come from the employee experience account.
