Creates the office on women's health within the Louisiana Department of Health. (gov sig)

This office shall (1) Educate and advocate for women's health with an emphasis on preventive health and healthy lifestyles. (2) Identify, and establish priorities for programs, services, and resources for women's health issues and concerns. (3) Serve as a clearinghouse and resource regarding women's health data, strategies, services, and programs that address women's health issues. (4) Collect and analyze relevant information and data resulting from research conducted or compiled by LDH and any collaborative entities. (5) Develop and recommend funding and program activities for educating the public on women's health initiatives relating to social determinants of health. (6) Make recommendations to the secretary of LDH concerning programs that address women's health issues for inclusion in the department's budget and strategic planning. (7) Seek funding from private or other governmental entities to carryout the purposes provided in proposed law. (8) Prepare for publication and dissemination of public materials regarding women's health. (9) Conduct public educational forums to raise awareness and educate citizens about women's health programs, issues, and services. (10) Coordinate the activities and programs of the office with other entities that focus on women's health or women's issues. (11) Provide an annual report to the governor and the legislature, concerning priorities and services needed for women's health in this state and areas for improvement.

EXPENDITURE EXPLANATION

Proposed law may result in a significant increase in SGF expenditures and potential associated federal matching funds of up to \$1.8 M annually. Proposed law requires the appointment of an assistant secretary within the Louisiana Department of Health and grants hiring authority necessary to carry out the intended duties and functions of the office; to serve as a centralized point of women's health advocacy and to coordinate efforts with programs, services, and initiatives across the Louisiana Department of Health and other agencies that serve women.

LDH reports that initial discussion regarding the staffing requirements necessary to operate an effective Office of Women's Health (OWH) would likely incorporate 11 new T.O. positions to include: an Assistant Secretary; 8 Program Managers to serve as liaisons for OWH to coordinate research, analysis and policy management activities related to statewide health or social service programs; a Contract Grant Reviewer who will research potential grants and state appropriation budgets to attempt to expand available funds to support services to women and to develop and monitor contracts, applications and sub-recipient grant agreements; and an unspecified assistant. Proposed law authorizes the office to enter into agreements or contracts with any person or government agency as necessary or convenient to carry out its functions.

LDH estimates total personnel costs to be \$907,150 in annual salaries and \$453,575 in related benefits for a total of \$1,360,725. Further costs estimated by LDH include \$225,502 in Operating Expenses, \$200,000 in Professional Services, \$16,346 in Equipment and \$20,000 in Other Charges for a total state expenditure of \$1,822,573. The LFO has requested additional delineation of non-personnel expenses from LDH and will update this fiscal note when the information is received.

The Legislative Fiscal Office cannot corroborate the workload necessity detailed by LDH, particularly whether the scope of labor for OWH would require 8 Program Managers. To the degree that staffing levels are less than that estimated by LDH, costs would decrease proportionally.
