HB 223 Engrossed

2021 Regular Session

Willard

**Abstract:** Adds a definition of "proper shelter" for a dog.

Present law provides that the definition of the term "proper shelter" for an animal means providing each animal with adequate shelter from the elements as required to prevent unnecessary or unjustifiable suffering by the animal.

Proposed law retains present law and specifies that the present law definition of "proper shelter" applies to all animals, except for dogs.

Proposed law provides that the definition of "proper shelter" means, with regard to dogs, an upright, weather resistant structure with three walls, an opening, a roof, and a floor. The proper shelter shall be free of waste and standing water, and it shall be sufficient in size for an animal to stand in an upright position, turn around, and make normal posturing positions.

Proposed law further provides that "proper shelter" shall not include animal carriers, plastic crates, and other enclosures designed to provide temporary housing.
