WEAPONS/HANDGUNS OR DECREASE SD RV See Note  
Provides relative to the concealed carrying of firearms

Page 1 of 2

Present law prohibits the carrying of a concealed firearm; provides for criminal penalties; provides for certain exceptions to the offense; provides that Louisiana residents who meet certain eligibility requirements may apply for and be issued a concealed handgun permit; and requires the person to possess a valid concealed handgun permit to carry a concealed handgun in the state. Proposed law creates an exception to this prohibition for a person who is 18 years of age or older, and who is not prohibited from possessing a firearm under any federal or state law. Proposed law removes the requirement that a person must possess a permit issued by the state to carry a concealed handgun.

**EXPENDITURE EXPLANATION**

There is no anticipated direct material effect on governmental expenditures as a result of this measure. While proposed law does not directly impact state or local governmental expenditures, it does eliminate Statutorily Dedicated revenues out of the Concealed Handgun Permit Fund used to support certain functions within the Department of Public Safety, Office of State Police (\$4.1 M based on actual expenditures in FY 20), Local Funds used to support public defender offices, and other various SGR and Local Funds used to support courts, crime labs, etc. The total loss of revenues to support these expenditures is indeterminable (see Revenue Explanation).

NOTE: To the extent that the legislature continues to fund activities in State Police supported by these revenues at the same or a diminished level in subsequent fiscal years, the funding sources supporting the base expenditures must be replaced by SGF or another revenue source to supplant the loss of statutory dedication expenditures. These activities would compete for annual SGF resources along with other significant SGF supported services and activities of the state.

NOTE: DPS reports that direct expenditures associated with the concealed weapon permit activity were approximately \$742,000 in FY 19 and approximately \$769,000 in FY 18. There are currently six (6) filled civilian positions, one (1) trooper, two (2) wage employees, and two (2) students. To the extent that demand for concealed carry permits were to diminish with enactment of proposed law, the workload necessitated by this activity is assumed to decrease proportionately (see discussion in Revenue Explanation). DPSC-PSS reports that it would seek to reassign T.O. positions from this section to other needed duties within LSP in the event of a workload decrease.

**REVENUE EXPLANATION**

DPS estimates that proposed law may result in a revenue decrease of up to \$4.1 M in the statutorily dedicated Concealed Handgun Permit Fund related to new or renewal of five-year permits for concealed weapons based on FY 20 permits issued. DPS reports that in FY 20, 24,000 new, renewal permits, and lifetime permits were issued. Using those numbers as a baseline, the revenue loss could be up to \$4.1 M. NOTE: Some of the permits were issued at half the standard fee because they were for people 65 and older or people with active military status. Additionally, the number of permits issued varies widely from year to year based on external factors such as political influences, world and national events, etc. In FY 20, concealed permits were down as a result of the statewide ransomware attack and COVID-19. Actual expenditures from the Concealed Handgun Permit Fund have varied between \$3 M and \$5.4 M between FY 15 and FY 20.

DPS reports that the decrease attributable to enactment of proposed law is indeterminable and may be mitigated to a partial or significant degree because some people may still apply for a concealed weapon permit for several reasons. The Louisiana permit can be used to purchase a firearm due to it being National Instant Criminal Background Check System (NICS) compliant. Also, there are reciprocity agreements with other states that allow concealed carry in those states with a Louisiana permit.

**CONTINUED EXPLANATION from page one:**  
**REVENUE EXPLANATION CONTINUED FROM PAGE ONE**

**Louisiana Public Defender Board**

The proposed law may result in an indeterminable decrease of Local Funds revenue received by district public defender offices to handle cases associated with a failure to have a permit to carry a concealed handgun. District offices are owed a \$40 fee per application for public defense services and defendants are assessed a \$45 special court cost for every conviction or nolo contendere plea. It is unclear how many of the 300 concealed handgun related cases handled by the public defenders annually are solely the result of an illegal carrying a concealed weapon charge only, and how many are in conjunction with other charges. Therefore, the net impact on revenues is likely a decrease but indeterminable.

Other entities receive a portion of fees paid upon conviction of possession of a concealed firearm, and elimination of the requirement to carry a concealed handgun permit may result in decreased SGR and LF revenues to support courts, crime labs, etc. The total loss of revenues for the associated entities is indeterminable.
