SENATE CONCURRENT RESOLUTION NO. 33

BY SENATOR LUNEAU AND REPRESENTATIVE HARRIS

FEDERAL PROGRAMS. Requests the federal Office of Management and Budget to maintain the current minimum population Standard for Delineating Metropolitan and Micropolitan Statistical Areas.

A CONCURRENT RESOLUTION

2	To urge and request the federal Office of Management and Budget to retain the 2010
3	Standards for Delineating Metropolitan and Micropolitan Statistical Areas (MSA's)
4	with a minimum population of fifty thousand.
5	WHEREAS, the Metropolitan and Micropolitan Statistical Area Standards Review
6	Committee has recommended that the Office of Management and Budget of the United
7	States Government change the 2010 Standards for Delineating Metropolitan and
8	Micropolitan Statistical Areas from a minimum population of fifty thousand to one hundred
9	thousand; and
10	WHEREAS, raising the minimum Metropolitan Statistical Area (MSA) population
11	cutoff from fifty thousand to one hundred thousand would remove the MSA designation
12	from Alexandria, Louisiana, and Hammond, Louisiana, as well as over one hundred forty
13	other cities across the United States; and
14	WHEREAS, raising the minimum population cutoff would undermine the
15	consistency in the collection and tabulation of federal statistics; and
16	WHEREAS, according to the federal General Accounting Office, raising the
17	minimum population for MSA's would likely result in a loss of eligibility for funding from
18	three dozen federal programs for communities needing it most, including Alexandria and

Ι	Jan	m	nd.	and

an area's economic conditions; and

WHEREAS, interrupting the flow of funding from the federal Community
Development Block Grant program would be catastrophic to the poorest neighborhoods of
Alexandria and Hammond, impacting the ability to reduce blight, decrease lead hazards,
renovate dilapidated residences, and develop safer, affordable housing; and
WHEREAS, losing funding from federal rural development programs and eligibility
for certain grants to regional planning organizations to improve infrastructure would be
harmful to central and southeastern Louisiana, especially during the pandemic recovery
period; and
WHEREAS, losing eligibility for federal loans for broadband expansion in rural
areas would be particularly harmful for Alexandria, Hammond, and surrounding areas and
would impede economic growth; and
WHEREAS, a reduction of reimbursement from the federal Hospital Inpatient
WIEKEAS, a reduction of remoursement from the rederal mospital inpatient
Prospective Payment System would severely financially impact acute care hospitals and their

Prospective Payment System would severely financially impact acute care hospitals and their ability to serve the people of Alexandria and Hammond as well as people in multi-parish areas surrounding these cities; and WHEREAS, raising the minimum MSA population would do little to return the population balance between metropolitan and micropolitan areas back to the even split that existed when the MSA's were first conceived more than seventy years ago, but would create unwarranted changes on the distribution of federal assistance; and

WHEREAS, long term data sets are also helpful for local governments as they implement policies to raise unemployment rates and administer aid during the economic recovery; and

WHEREAS, it is particularly important to nurture pro-growth policies for businesses, families, and communities as we collectively work on the economic recovery.

THEREFORE, BE IT RESOLVED that the Legislature of Louisiana does hereby

SLS 21RS-915

ORIGINAL
SCR NO 33

urge and request the Office of Management and Budget of the United States Government to reject the recommendation by the Metropolitan and Micropolitan Statistical Area Standards Review Committee to change the 2010 Standards for Delineating Metropolitan and Micropolitan Statistical Areas from a minimum population of fifty thousand to one hundred thousand.

SCR 33 Original

BE IT FURTHER RESOLVED that the Legislature of Louisiana does hereby urge and request the Office of Management and Budget of the United States Government to retain the current Standard for Delineating Metropolitan and Micropolitan Statistical Areas at a minimum population of fifty thousand.

BE IT FURTHER RESOLVED that a copy of this Resolution be transmitted to Robert S. Fairweather, Acting Director, Office of Management and Budget, and Dominic Mancini, Deputy Administrator, Office of Information and Regulatory Affairs.

The original instrument and the following digest, which constitutes no part of the legislative instrument, were prepared by Jerry J. Guillot.

DIGEST 2021 Regular Session

Luneau

Requests the U.S. Office of Management and Budget to maintain the current Standard for Delineating Metropolitan and Micropolitan Statistical Areas at a minimum population of 50,000.
