Under present law, requires the SOS to send information from the LDH to the ROVs on decedents whose registrations were not canceled. Proposed law requires that the SOS cancel decedents registration and send the information within 30 days. Proposed law requires ROVs to review LDH information to determine if it matches information that is sufficient to cancel or challenge registration of a voter within 30 days. **EXPENDITURE EXPLANATION**

There is no anticipated direct material effect on governmental expenditures as a result of this measure. Once notice is received, the proposed law requires the Registrars of Voters (ROVs) and the Secretary of State (SOS) to remove a deceased person's name from the voter registration rolls if it corresponds exactly to the criteria for cancellation of voter registration within 30 days. Furthermore, under the proposed law, if using the information provided by the LA Department of Health (LDH), the Registrar of Voters shall review the information to determine if it matches information sufficient to cancel or challenge the registration of a deceased person within 30 days. If the SOS does not cancel a decedent's name from the voter registration rolls based on the LDH information, the ROVs are required to search the obituaries and cancel registrations based on obituaries under this measure.

The SOS reports that implementing the proposed law requires one-time funding of \$32,000 SGF (320 hours x \$100) due to IT programming changes for the Voter Registration system to match data from LDH. The SOS can accomplish these tasks utilizing existing resources and budget authority. To the extent that numerous pieces of legislation are enacted requiring programming efforts, the agency may require additional resources.

**REVENUE EXPLANATION**

There is no anticipated direct material effect on governmental revenues as a result of this measure.
