EXPENDITURE EXPLANATION

There is no anticipated impact to Medicaid, OGB, or private industry as a result of requiring plan coverage for midwife services. This measure requires health coverage plans that provide benefits for maternity services to also include coverage for services provided by midwives, which are currently covered services under the plans. In addition, this measure creates a Doula Registry Board within the Louisiana Department of Health, and requires LDH to provide support staff to the board. Board members will service without compensation, and any additional workload associated with LDH staff assisting the board is anticipated to be covered with existing staff and resources.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
