41	§241. Net income subject to tax

The net income of a nonresident individual or a corporation subject to the tax imposed by this Chapter shall be the sum of the net allocable income earned within or derived from sources within this state, as defined in R.S. 47:243, and the net apportionable income derived from sources in this state, as defined in R.S. 47:244, less the amount of federal income taxes attributable to the net allocable income and net apportionable income derived from sources in this state. The amount of federal income taxes to be so deducted shall be that portion of the total federal income tax which is levied with respect to the particular income derived from sources in this state to be computed in accordance with rules and regulations of the collector of revenue. Proper adjustment shall be made for the actual tax rates applying to different classes of income and for all differences in the computation of net income for purposes of federal income taxation as compared to the computation of net income under this Chapter. Where the allocation of the tax is to be based on a ratio of the amount of net income of a particular class, both the numerator and the denominator of the fraction used in determining the ratio shall be computed on the basis that such net income is determined for federal income tax purposes.
