Subject: Annual Audit of Elections by the Legislative Auditor	

LEGISLATIVE AUDITOR RE1 INCREASE GF EX See Note Page 1 of 1
 Provides relative to the legislative auditor. (8/1/21)

Proposed law requires the Louisiana Legislative Auditor to examine, audit, or review local, state, and federal elections that are held according to LA Election Code (Title 18) as well as examine voter registration services. Proposed law allows the auditor to set the scope, frequency, and methodology of the examinations and provides that the auditor may utilize a performance-based or risk-based approach for the examinations of elections. Proposed law provides for records retention of at least two years and provides original records remain the custody of the election official. Proposed law requires the Legislative Auditor to submit a report to the Senate and Governmental Affairs Committee, the House and Governmental Affairs Committee, and the Secretary of State as well as present the report to both legislative committees, meeting separately or jointly, within 30 days after issuing the audit report. Proposed law is effective 1/01/2024.

EXPENDITURE EXPLANATION

Proposed law will result in an increase in SGF expenditures related to audit services (see discussion regarding scope and frequency in next paragraph) and may result in a minimal increase in local expenditures for parish election officials related to storing and maintaining election records for two years. The proposed law requires the LA Legislative Auditor (LLA) to examine, audit, and review local, state, and federal elections as well as examine voter registration services to ensure that elections and registration were held in accordance with the LA Election Code. Also, the proposed law requires the LLA to submit any report to the Senate and Governmental Affairs Committee, the House and Governmental Affairs Committee, and the Secretary of State (SOS). The LLA is required to present the report to both committees, meeting separately or jointly, within 30 days of issuing the audit report.

Under present law, the LLA is responsible for conducting regularly scheduled performance audits on each executive branch department at least once every seven years. The SOS is scheduled for a performance audit in FY 22. Therefore, LLA will not incur any additional expenses to audit the SOS in FY 22 or FY 23 under this measure. The proposed law allows LLA to set the scope, frequency, and methodology of examinations. **The scope and associated annual costs will be more clearly defined after LLA performs the scheduled performance audit in FY 22.** To the extent the performance audit finds it necessary to conduct audits on the SOS beginning in FY 24, the LLA reports needing up to five dedicated positions with an average salary and related benefits of \$120,000 per position, totaling \$600,000. LLA assesses annual fees on all departments within the executive branch to fund audit services. The Legislative Fiscal Office (LFO) presumes that the SOS will be assessed additional fees to cover the costs of annual audits, and the department will require additional SGF appropriation to pay any increase in auditor fees. The proposed law prohibits LLA from assessing additional fees on local governmental units. The LFO assumes any local audits would be paid by appropriation of state resources.

The proposed law requires a 2-year retention of all election records including but not limited to ballot applications, mail ballots, and voting rolls. The SOS reports their records will be stored and maintained at the State Archives building at no additional cost. The LFO is unable to determine how parish election officials will provide storage and maintenance. Presently, election records must be retained a minimum of 6 months for state elections and two years for federal elections. Parishes with limited storage availability may incur additional expenditures for storage under this measure, but the cost is anticipated to be minimal.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
