EXPENDITURE EXPLANATION

There will be an indeterminable increase in governmental expenditures in FY 22 to publish public notices of hearings in the official journal of each parish. Proposed law requires the BESE to publish a notice of any hearing held regarding the development of social studies standards in the official journal of each parish in the state. The cost will be determined by the length of such notices and the prevailing rates to publish notices in 64 parishes.

According to the Department of Education, the topics in the proposed bill are already reflected in existing social studies content standards and companion documents. However, if the proposed legislation requires the Board of Elementary and Secondary Education (BESE) to hold public hearings, there will be a cost associated with publishing public notices in the official journal of each parish. Such costs are indeterminable at this time.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
