

SENATE CONCURRENT RESOLUTION NO. 75

BY SENATORS FRED MILLS, ALLAIN AND HENSGENS AND REPRESENTATIVES
BOURRIAQUE, HUVAL AND MIGUEZ

A CONCURRENT RESOLUTION

To acknowledge the agreement entered into by Iberia and Vermilion parishes to reestablish the original parish line.

WHEREAS, Iberia and Vermilion Parishes are exercising the governmental functions of each parish to interpret, ascertain, and reestablish the original parish line and not change or alter its location; and

WHEREAS, there has been confusion as to the exact location of the boundary between the two parishes for more than one hundred years and there is a real need for delineation because it effects economic development, law enforcement jurisdiction, emergency 911 calls, school attendance, voting, taxation, garbage pickup, road maintenance, drainage maintenance, and other public services; and

WHEREAS, it is not the intention of either Iberia Parish or Vermilion Parish to change or alter the location of any boundary between them, but rather to interpret, ascertain, and reestablish the exact location of their joint boundaries; and

WHEREAS, after a review of historical data, several surveys, research of records and Acts of the Legislature by both parishes, the parties entered into an agreement to finally and fully settle the litigation between them; and

WHEREAS, Iberia Parish and Vermilion Parish have entered into a joint cooperative endeavor agreement providing for the boundary; and

WHEREAS, this agreement settles all issues raised that either party might have against the other, arising out of or in any way connected with the previously filed boundary litigation.

THEREFORE, BE IT RESOLVED that the Legislature of Louisiana does hereby acknowledge the agreement entered into by Iberia and Vermilion parishes to reestablish the original parish line.

BE IT FURTHER RESOLVED that a copy of this Resolution be transmitted to the Iberia Parish Government and the Vermilion Parish Police Jury.

PRESIDENT OF THE SENATE

SPEAKER OF THE HOUSE OF REPRESENTATIVES
