**EXPENDITURE EXPLANATION**

There is no anticipated direct material effect on governmental expenditures as a result of this measure.

Proposed law requires that certain additional data relative to minors who undergo abortion be included in the annual statistical abortion-related data issued by LDH. The collecting and reporting of this additional data can be accomplished by LDH with its existing resources.

Proposed law also requires that if a person receiving an abortion is a minor and is suspected to be a victim of child abuse or neglect, then the physician must report the suspected abuse or neglect to DCFS. Physicians are already required to report suspected abuse to DCFS; therefore, the LFO does not anticipate a workload increase for the department.

**REVENUE EXPLANATION**

There is no anticipated direct material effect on governmental revenues as a result of this measure.
