

RÉSUMÉ DIGEST

ACT 442 (HB 44)

2021 Regular Session

DeVillier

Existing law defines "construction aggregates" as any of the following: sand, gravel, crushed stone, reef shell, clam shell, sand-clam shell mixture, sand-reef shell mixture, sand clay gravel, clam-reef shell mixture, crushed concrete, expanded clay, calcium sulfate hemihydrate, asphalt, and bulk soil.

New law expands the definition of "construction aggregates" to include dirt.

Effective August 1, 2021.

(Adds R.S. 32:388(B)(4)(b)(xv))
