HB 453 Original

2022 Regular Session

Harris

Abstract: Requires public school governing authorities to post on their websites information pertaining to instructional materials and activities.

Proposed law requires each public school governing authority to post prominently on its website:

- (1) A list of the materials and activities to be used for student instruction at each school under its jurisdiction during the school year, organized by school, subject area, and grade level.
- (2) Any policies and procedures in effect for the documentation, review, or approval of such materials and activities.

Proposed law requires this information to be posted by the first day of school each year and updated, at minimum, by Jan. 15 annually and for parents to be notified when it is initially posted and updated.

Proposed law provides that proposed law shall not be construed to require a public school governing authority to post a teacher's lesson plans or information about material or an activity in a manner that would constitute a copyright infringement.

Proposed law requires public school governing authorities to adopt policies for the implementation of proposed law.

Proposed law is applicable to all public schools, including charter schools.
