AN ACT

To amend and reenact R.S. 38:3302, 3303(B), (C), and (D), 3305(Section heading), 3306(A) and (C), 3307(C), and 3309 and to enact R.S. 38:3301(C), 3303(E) and (F), 3304(C)(3), 3306(G), (H), (I), and (J), and 3307(E), relative to management of the Amite River Basin; to provide for the board of commissioners; to provide for appointment and terms of commissioners; to provide for powers and duties of the board; to provide for contact authority; to provide for posting requirements; to provide for technical assistance from the Coastal Protection and Restoration Authority; to provide for taxing authority; and to provide for related matters.

Be it enacted by the Legislature of Louisiana:

Section 1. R.S. 38:3302, 3303(B), (C), and (D), 3305(Section heading), 3306(A) and (C), 3307(C), and 3309 are hereby amended and reenacted and R.S. 38:3301(C), 3303(E) and (F), 3304(C)(3), 3306(G), (H), (I), and (J), and 3307(E) are hereby enacted to read as follows:

§3301. Limits of district; limits of Comite River Diversion Canal Impact Area

* * *

C.(1) The district shall also be comprised of all portions of the geographical area within the watershed limits of the Amite River and Tributaries Basin located in those parts of Iberville, Ascension, and St. James Parishes south of Louisiana Highway 61 and not particularly described in Subsection A of this Section.

CODING: Words in struck through type are deletions from existing law; words underscored are additions.
(2) By January 1, 2023, the Coastal Protection and Restoration Authority in consultation with the office of state lands shall submit to the legislature a detailed legal description of the Amite River and Tributaries Basin as described in Subsection A of this Section and Paragraph (1) of this Subsection.

§3302. Board of commissioners

The management and control of the district shall be vested in a board of commissioners for the Amite River Basin Drainage and Water Conservation District. The board shall have the authority to establish adequate drainage, flood control, and water resources development to include but not be limited to construction of reservoirs, diversion canals, gravity and pumped drainage systems, and other flood control works. The board of commissioners shall comprehensively manage the district as a single system.

§3303. Appointment and term of commissioners

* * *

B. One member shall be appointed by the governor from the district at large.

Seven members shall be the parish presidents representing the parishes making up the district, or their designee, and shall serve ex officio without appointment.

C. The remaining twelve six members shall serve at large and shall be appointed by the governor as follows:

(1) Two qualified electors residing in that portion of each parish within the district from nominations submitted by the members of the legislature serving that portion of each parish within the district. Commissioners at large shall be appointed by the governor, subject to senate confirmation, from nominations submitted by the representatives and senators whose districts include any portion of the district.

(2) In the event any present member of the commission shall cease to be a member thereof for any reason prior to the expiration of his term, his successor shall be appointed from the same parish as the original appointment provided in this Chapter. Thereafter, the successors of all of the commissioners shall be appointed for terms concurrent with the appointing governor. Any subsequent vacancy on the
commission for any reason shall be filled for the unexpired portion of the term in the
same manner as the original appointment. Nominees are encouraged to, but need
not, reside in the district or any particular parish within it.

(3) Each legislator may nominate up to two persons meeting the qualification
requirements, per vacant position.

(4) If no nominees meeting the qualification requirements are submitted for
a seat, the governor may choose his own.

D. All members of the board appointed by the governor shall serve terms
concurrent with that of the governor. Each appointment by the governor shall be
submitted to the Senate for confirmation. At large commissioners shall serve a term
of four years, staggered with three positions expiring every two years. Initial terms
shall be two years for three commissioners and four years for three commissioners,
chosen by lot. The existing board shall terminate effective January 1, following
enactment of this Act.

E. All six commissioners at large shall have at least ten years of professional
experience in their discipline, of which at least four shall be engineers or
professionals in a drainage-related field such as geotechnical, hydrological, or
environmental science. Parish commissioner designees are encouraged to be, but
need not be, professionals.

F. Appointment of, or voting by, public servants to the board of
commissioners shall not constitute violation of the dual officeholding and dual
employment law, R.S. 42:61 et seq., or the Code of Governmental Ethics, R.S.
42:1101 et seq., but such persons shall not vote on any matter in which they have a
personal financial interest other than as a resident of the district.

§3304. Meetings of board; quorum; officers; removal of commissioners; salaries
and expenses; requirements; frequency and location

*   *   *

C.

*   *   *
(3) The board shall post agendas for all meetings on its website at least twenty four hours prior to meetings. The board shall stream all district meetings live on the internet.

§3305. Department of Transportation and Development and Coastal Protection and Restoration Authority to advise board

The Department of Transportation and Development and the Coastal Protection and Restoration Authority shall, upon request, advise the board as to the progress and status of adequate drainage, flood control, and water resources development which shall include but is not limited to construction of reservoirs, diversion canals, gravity and pumped drainage systems, and other flood control wear of the district. The Department of Transportation and Development and the Coastal Protection and Restoration Authority shall furnish estimates and specifications and perform all engineering work required of them by the board. The board may request technical assistance from the Coastal Protection and Restoration Authority regardless of whether the area affected is inside the coastal area as defined in R.S 22:2292. The Coastal Protection and Restoration Authority retains the right to be reimbursed for the reasonable cost of its assistance.

§3306. General powers and duties of the board

A. (1) The board shall adopt bylaws for its own government and for the government of its employees. It shall adopt rules or regulations for comprehensive drainage, flood control and water resources development, reservoir, and diversion canal systems. Prior to the adoption, amendment, or repeal of any rule or regulation by the board, the proposed rule or regulation shall be submitted to the House Committee on Transportation, Highways, and Public Works and the Senate Committee on Transportation, Highways, and Public Works. Oversight review of rules and regulations shall be conducted by the respective committees provided for herein. The board shall keep a record of its proceedings, which shall be published after each meeting in a journal to be selected by it. The board at each regular session shall examine all accounts or operations of the board and determine what work shall
be undertaken. All work shall be advertised to be let out by means of sealed
proposals to the lowest responsible bidder, reserving to the board authority to reject
all bids. In case of emergency, the board may make contracts for the control of
flooding without advertisement and sealed proposals.

(2) Prior to January 1, 2026, the board shall promulgate regulations for
watershed management within the District, insofar as they affect watershed
management, that address the following:

(a) Planning.
(b) Permitting.
(c) Selection of and performing projects.
(d) Resolution of conflicts among agencies.
(e) Use of best available science.
(f) Outreach to the public and agencies.
(g) Coordination with state agencies and political subdivisions regarding
watershed management.
(h) Identifying, seeking, receiving, and expending federal and other funding
for planning and projects.
(i) Providing assistance to political subdivisions in planning, designing and
constructing projects, and identifying and obtaining funding.
(j) Agreements with public and private entities to identify, seek, receive, and
expend funds.
(k) Maintaining projects once complete.
(l) Providing an appeal process.
(m) Defining qualifications for staff and contractors.

* * *

C. The board shall have the authority to construct and maintain drainage
works of all types either in cooperation with one or more parishes, municipalities,
Drainage districts, or other special districts within its territorial jurisdiction or upon
its own undertaking. Projects shall require approval of two thirds of the total voting

CODING: Words in struck through type are deletions from existing law; words underscored
are additions.
membership. Technical aspects of projects, including planning and permitting
decisions, shall require approval by a simple majority of the total voting
membership.

* * *

G. The board shall develop and implement a plan to manage and maintain
all waterways in the district, of state or regional concern, in relation to matters
impacting watershed management in the district.

H.(1) The board shall develop a master plan for comprehensive drainage,
flood control, and water resource management within the district ("watershed
management") through the construction and management of projects and programs,
including planning, permitting, development, and waterway management. The plan
shall address watershed management from both short-term and long-range
perspectives, and shall incorporate structural, management, and institutional
components of both efforts. The plan shall include a list of projects and programs
required for implementation, a schedule and estimated costs, and explain why each
project or program was selected and how it advances plan objectives. The plan shall
be consistent with the Coastal Protection and Restoration Authority Master Plan. It
shall also provide for public outreach and public hearings in at least northern, central,
and southern portions of the district. The plan shall be subject to legislative
approval. The board shall submit its initial plan prior to the 2025 legislative session,
and shall review, revise, and amend its plan every six years thereafter.

(2) All political subdivisions within the bounds of the district shall
administer their regulatory practices, programs, projects, contracts, grants, and all
other functions vested in them in a manner consistent with the master plan and shall
be consistent with public interest to the maximum extent possible.

I. The board shall develop annual plans for watershed management. Each
annual plan shall include, at minimum, a three year projection of funding for projects
and programs, including funding sources. The plan shall be consistent with the
Coastal Protection and Restoration Authority Master Plan. The plan shall provide
for public outreach and public hearings in at least northern, central, and southern
portions of the district. The plan shall be subject to legislative approval. The board
shall submit its initial annual plan by January 1, 2024.

J. The board shall report annually to a committee of representatives and
senators whose districts include any portion of the Amite River Basin.

§3307. Corporate status and powers of board; domicile; evidence of acts and
proceedings; deposit of funds; warrants

*          *          *

C. The board may buy and sell property, make and execute all contracts, and
do and perform all things necessary to carry out the objects of this Chapter, subject
to the limitations and duties herein provided. Notwithstanding any provision of law
to the contrary, the board may contract with the federal government, the state, or any
other public or private entity to receive and expend funds and perform projects or
plans for watershed management.

*          *          *

E. The board shall identify and consider to what extent matters regarding an
agreement with the state of Mississippi relative to watershed management and how
it may be beneficial to management of the basin in Louisiana, and subject to
approval of the governor, the board may contract with the state of Mississippi for
such purposes including for doing projects.

*          *          *

§3309. Authority to levy

For the purpose of providing revenue to carry out the objects contemplated
by this Chapter, the board of commissioners may levy on all property in the district,
or on all property within the Comite River Diversion Canal Impact Area, subject to
taxation for drainage purposes a district drainage tax not to exceed three mills on the
dollar of its assessed valuation, as provided by Article VI, Section 19 of the
Constitution of Louisiana. The tax shall not be levied unless the proposition to levy
the tax is approved by a majority of the electors of the district, or by a majority of the
electors of the Comite River Diversion Canal Impact Area if limited to such area, who vote on the proposition. Furthermore, such tax shall be levied only in those parishes in which a majority of the electors of the parish, which are within the district, voting in an election approve such proposition, and such proposition on the ballot provides that the ad valorem tax is to be levied only in said parishes.

DIGEST

The digest printed below was prepared by House Legislative Services. It constitutes no part of the legislative instrument. The keyword, one-liner, abstract, and digest do not constitute part of the law or proof or indicia of legislative intent. [R.S. 1:13(B) and 24:177(E)]

HB 686 Original 2022 Regular Session Mincey

Abstract: Modifies management of the Amite River Basin.

Present law establishes the geographical bounds of the district. Proposed law retains present law and provides that the district shall also be comprised of all portions of the geographical area within the watershed limits of the Amite River and Tributaries Basin located in those parts of Iberville, Ascension, and St. James Parishes south of La. Hwy. 61 and not particularly described in present law.

Proposed law further provides that by Jan. 1, 2023, the Coastal Protection and Restoration Authority in consultation with the office of state lands must submit to the legislature a detailed legal description of the Amite River and Tributaries Basin.

Present law provides that the management and control of the Amite River Basin Drainage and Water Conservation District is vested in a board of commissioners for the district. Further provides for the board's authority to establish adequate drainage, flood control, and water resources development to include but not be limited to construction of reservoirs, diversion canals, gravity and pumped drainage systems, and other flood control works. Proposed law retains present law and adds a requirement that the board comprehensively manage the district as a single system.

Present law provides for a 13 person commission. Proposed law retains present law. Present law provides that one member from the district is appointed by the governor and serves at large. Proposed law provides that six members be appointed by the governor to serve at large. Further provides that commissioners at large will serve four year terms staggered with three positions expiring every two years; initial terms shall be two years for three commissioners and four years for three commissioners; be subject to senate confirmation, from nominations submitted by the representatives and senators whose districts include any portion of the district. Specifies that nominees are encouraged to but need not reside in the district or any particular parish within it. Specifies that each legislator may nominate up to two persons meeting the qualification requirements, per vacant position. Specifies that if no nominees meeting the qualification requirements are submitted for a seat, the governor may choose his own. Further provides that all six commissioners at large must have at least 10 years of professional experience in their discipline, of which at least four must be engineers or professionals in a drainage-related field such as geotechnical, hydrological, or environmental science. Specifies that parish commissioner designees are encouraged to be, but need not be, professionals.

CODING: Words in struck through type are deletions from existing law; words underscored are additions.
Proposed law requires the board to post agendas for all meetings on its website at least twenty four hours prior to meetings and to stream all district meetings live on the internet.

Present law requires the Dept. of Transportation and Development to provide advice and technical assistance to the board. Proposed law retains present law and adds advice and technical assistance from the Coastal Protection and Restoration Authority upon request.

Present law provides for the general powers and duties of the board. Proposed law retains present law and adds a requirement that prior to Jan. 1, 2026, the board must promulgate regulations for watershed management within the district, insofar as they affect watershed management, that address the following:

1. Planning.
2. Permitting.
3. Selection of and performing projects.
4. Resolution of conflicts among agencies.
5. Use of best available science.
6. Outreach to the public and agencies.
7. Coordination with state agencies and political subdivisions regarding watershed management.
8. Identifying, seeking, receiving, and expending federal and other funding for planning and projects.
9. Providing assistance to political subdivisions in planning, designing and constructing projects, and identifying and obtaining funding.
10. Agreements with public and private entities to identify, seek, receive, and expend funds.
11. Maintaining projects once complete.
12. Providing an appeal process.

Present law grants the board authority to construct and maintain drainage works of all types either in cooperation with one or more parishes, municipalities, drainage districts, or other special districts within its territorial jurisdiction or upon its own undertaking. Proposed law retains present law and adds a requirement that projects receive approval of two thirds of the total voting membership. Further adds that technical aspects of projects, including planning and permitting decisions, require approval by a simple majority of the total voting membership.

Proposed law requires the board to develop and implement a plan to manage all waterways in the district in relation to matters impacting watershed management in the district.

Proposed law requires the board to develop a master plan.

Proposed law requires the board to develop annual plans and report annually to a committee of representatives and senators whose districts include any portion of the Amite River Basin.

Proposed law requires the board to consider to what extent matters regarding an agreement with the state of Mississippi regarding watershed management and how it may be beneficial to management of the basin in Louisiana, and authorizes them to contract with the state of Mississippi for such purposes including for doing projects, subject to approval by the governor.

Present law provides for voting on taxes levied by the board to be by individual parish. Proposed law provides for voting on such taxes by everyone in the district as a whole.

(Amends R.S. 38:3302, 3303(B), (C), and (D), 3305(Section heading), 3306(A) and (C), 3307(C), and 3309; Adds R.S. 38:3301(C), 3303(E) and (F), 3304(C)(3), 3306(G), (H), (I), and (J), and 3307(E))

CODING: Words in struck through type are deletions from existing law; words underscored are additions.
