MEDICAL MARIJUANA: Reforms the state systems for regulating the production of
marijuana for therapeutic use and for the dispensing of such product

Be it enacted by the Legislature of Louisiana:

Section 1. R.S. 40:1046(A)(1), (C)(1) and (2)(introductory paragraph), (g), and (h), (G), and (H)(1), (2), and (6)(a)(introductory paragraph) and (b) are hereby amended and

CODING: Words in struck through type are deletions from existing law; words underscored are additions.
reenacted and R.S. 40:1046(A)(7), (B), and 1046.1 through 1046.3 are hereby enacted to read as follows:

§1046. Recommendation and dispensing of marijuana for therapeutic use; rules and regulations of the Louisiana State Board of Medical Examiners and Louisiana Board of Pharmacy; production facility licensing; by the Department of Agriculture and Forestry permitting by the Louisiana Department of Health

A.(1) Notwithstanding any other provision of this Part, any physician licensed by and in good standing with the Louisiana State Board of Medical Examiners to practice medicine in this state may recommend, in any form as permitted by the rules and regulations of the Louisiana Board of Pharmacy, raw or crude marijuana, tetrahydrocannabinols, or a chemical derivative of tetrahydrocannabinols for therapeutic use by any patient clinically diagnosed as suffering from a debilitating medical condition. Nothing in this Paragraph shall be construed to prevent the Louisiana Board of Pharmacy from permitting, by rule, medical marijuana in a form to be administered by metered-dose inhaler. For purposes of this Section, "metered-dose inhaler" means a device that delivers a specific amount of medication to the lungs, in the form of a short burst of medicine that is usually self-administered by the patient via inhalation:

*          *          *

(7) Nothing in this Paragraph shall be construed to prevent the Louisiana Board of Pharmacy from permitting, by rule, medical marijuana in a form to be administered by metered-dose inhaler. For purposes of this Section, "metered-dose inhaler" means a device that delivers a specific amount of medication to the lungs, in the form of a short burst of medicine that is usually self-administered by the patient via inhalation.

B. Nothing in this Part shall be construed or enforced in any manner that prevents a physician authorized by Subsection A of this Section to recommend
therapeutic marijuana from either recommending therapeutic marijuana or practicing
telemedicine, as defined in R.S. 37:1262, in this state.

C.(1) The Louisiana Board of Pharmacy shall adopt rules relating to the
dispensing of recommended marijuana for therapeutic use therapeutic marijuana.
Any rules published by the Louisiana Board of Pharmacy board on or before January
1, 2016, that describe the pharmacist as dispensing medical marijuana based on a
physician's prescription should be repromulgated to indicate that the physician is
"recommending" use of therapeutic marijuana.

(2) The rules promulgated pursuant to this Subsection shall include but not be limited to:

(g) The establishment of other licensing, renewal, and operational standards which are deemed necessary by the Louisiana Board of Pharmacy: Licensing, renewal, and operational standards including but not limited to therapeutic marijuana product labeling and packaging approval.

(h) The establishment of standards and procedures for testing recommended therapeutic marijuana samples for levels of tetrahydrocannabinol (THC) or other testing parameters deemed appropriate by the Louisiana Board of Pharmacy: Testing standards deemed appropriate by the board, including but not limited to testing of therapeutic marijuana samples for appropriate microbial and fungal limits, acceptable standards for pesticide chemical residues, appropriate residual solvent and heavy metals limits, homogeneity for concentrates and extracts, and complete active ingredient analysis or potency analysis to establish the presence of all active ingredients and their concentrations for accurate calculations of amounts needed for the production of products and to ensure accurate dosing. The rules shall allow for a variance of no greater than plus fifteen percent or minus fifteen percent from the labeled amount of active ingredients in the ingredient analysis or potency analysis.
G.(1) The Louisiana Board of Pharmacy shall develop an annual, nontransferable specialty license permit for a pharmacy to dispense recommended marijuana for therapeutic use and shall limit the number of such licenses granted in the state to no more than ten licensees. The Louisiana Board of Pharmacy shall develop rules and regulations regarding the geographical locations of dispensing pharmacies in Louisiana. For purposes of allocating marijuana pharmacy permits pursuant to this Subsection, the board shall recognize as regions of the state all of the following:

(a) The Metropolitan Region, which shall be comprised of the parishes of Jefferson, Orleans, Plaquemines, and Saint Bernard.

(b) The Capital Region, which shall be comprised of the parishes of Ascension, East Baton Rouge, East Feliciana, Iberville, Pointe Coupee, West Baton Rouge, and West Feliciana.

(c) The Teche Region, which shall be comprised of the parishes of Assumption, Lafourche, Saint Charles, Saint James, Saint John the Baptist, Saint Mary, and Terrebonne.

(d) The Acadiana Region, which shall be comprised of the parishes of Acadia, Evangeline, Iberia, Lafayette, Saint Landry, Saint Martin, and Vermilion.

(e) The Southwest Region, which shall be comprised of the parishes of Allen, Beauregard, Calcasieu, Cameron, and Jefferson Davis.

(f) The Central Region, which shall be comprised of the parishes of Avoyelles, Catahoula, Concordia, Grant, LaSalle, Rapides, Vernon, and Winn.

(g) The Northwest Region, which shall be comprised of the parishes of Bienville, Bossier, Caddo, Claiborne, DeSoto, Natchitoches, Red River, Sabine, and Webster.

(h) The Northeast Region, which shall be comprised of the parishes of Caldwell, East Carroll, Franklin, Jackson, Lincoln, Madison, Morehouse, Ouachita, Richland, Tensas, Union, and West Carroll.
(i) The Southeast Region, which shall be comprised of the parishes of Livingston, Saint Helena, Saint Tammany, Tangipahoa, and Washington.

(2) The board shall reserve one marijuana pharmacy permit for each of the nine regions identified in Paragraph (1) of this Subsection. Within three months after the registration of five thousand qualified patients, as recorded in the prescription monitoring program, within any region identified in Paragraph (1) of this Subsection, the board shall issue to an existing marijuana pharmacy licensed and operating in that region one additional marijuana pharmacy permit for a location in the region. Thereafter, the board shall issue an additional marijuana pharmacy permit after the registration of each additional increment of five thousand qualified patients, as recorded in the prescription monitoring program, within any region identified in Paragraph (1) of this Subsection.

(3) No marijuana pharmacy shall locate within a five-mile radius of another marijuana pharmacy.

(4) Each marijuana pharmacy shall offer home delivery to each zip code with active qualified patients within its respective region at least once per month.

H.(1)(a) The Department of Agriculture and Forestry shall develop the rules and regulations regarding the extraction, processing, and production of recommended therapeutic marijuana and the facility producing therapeutic marijuana. The rules and regulations shall require as a minimum standard that the extraction and refining process produce a product that is food-safe and capable of producing pharmaceutical-grade products. The legislature hereby recognizes and declares that both the Louisiana State University Agricultural Center and the Southern University Agricultural Center timely exercised and asserted the intent of each university to be licensed to produce recommended marijuana for therapeutic use in this state in accordance with the provisions of Act No. 261 of the 2015 Regular Session of the Legislature of Louisiana.

(b) The rules and regulations shall also include but not be limited to the procedures for application, qualifications, eligibility, background checks, and
standards for suitability for a license and penalties for violations of the rules and
regulations. Each institution identified in Subparagraph (a) of this Paragraph,
respectively, shall select and contract with only one contractor authorized to produce
therapeutic marijuana in accordance with this Part. The selection process and
contracting provided for in the Subparagraph shall be done in accordance with all
applicable provisions of the Louisiana Procurement Code, R.S. 39:1551 et seq. Each
contractor and the university with which it contracts shall execute an agreement for
services.

(2)(a) The Department of Agriculture and Forestry shall develop an annual:
The Louisiana Department of Health shall issue all of the following annually:

(a) A nontransferable specialty license for the production of recommended
marijuana for therapeutic use, which the department shall issue only to the Louisiana
State University Agricultural Center and the Southern University Agricultural
Center. Other than the licenses granted pursuant to Subparagraph (b) of this
Paragraph, the Department of Agriculture and Forestry shall limit the number of such
licenses granted in the state to no more than one licensee. The Louisiana State
University Agricultural Center and the Southern University Agricultural Center shall
have the right of first refusal to be licensed as the production facility, either
separately or jointly. If neither of the centers exercise this option, the license shall
be awarded pursuant to the requirements provided for in Paragraphs (3) through (5)
of this Subsection.

(b) Prior to September 1, 2016, the Louisiana State University Agricultural
Center and the Southern University Agricultural Center shall each provide written
notice to the commissioner of agriculture and forestry of their intent to be licensed
as a production facility, either separately or jointly. A permit to cultivate, extract,
process, produce, and transport therapeutic marijuana, which the department shall
issue only to the sole contractor selected by each university in accordance with
Paragraph (1) of this Subsection.

CODING: Words in struck through type are deletions from existing law; words underscored
are additions.
(c) The Louisiana State University Agricultural Center or the Southern University Agricultural Center may conduct research on marijuana for therapeutic use if the center is licensed as a production facility pursuant to this Section.

(d) Effective January 1, 2020, and annually thereafter, on or before February 1 annually, the Louisiana State University Agricultural Center and the Southern University Agricultural Center shall each submit a report to the Senate and House committees on health and welfare, to include a report which includes data and outcomes of any research conducted pursuant to Subparagraph (c) of this Paragraph. No such report shall include any proprietary information, intellectual property, or private financial data.

(6)(a) The Department of Agriculture and Forestry Louisiana Department of Health shall collect all of the following information from each licensee:

* * *

(b) The Department of Agriculture and Forestry Louisiana Department of Health shall provide the information collected pursuant to as required by this Paragraph for the previous calendar year in the form of a written report to the legislature no later than February first of each year. The department shall also make a copy of the report required by this Subparagraph available to the public on the internet.

* * *

§1046.1. Contractors; selection; minimum standards

A. The contractor selected by the licensed university through a competitive bid process to cultivate, extract, process, produce, and transport therapeutic marijuana shall be subject to oversight by its licensed university and inspections by the Louisiana Department of Health as provided in this Section.

B. Initial inspections of contractor facilities shall be conducted in accordance with the following procedures and requirements:
(1) Prior to commencement of operations, the Louisiana Department of Health and the licensed university shall conduct an initial inspection of the contractor's facility, limited strictly to a determination of the following:

(a) That the contractor facility adheres to all of the following:

(i) Is within a building that has a complete roof enclosure supported by connecting walls, constructed of solid materials, and extending from the ground to the roof;

(ii) Has a foundation, slab, or equivalent base to which the floor is securely attached.

(iii) Meets performance standards ensuring that cultivation and processing activities cannot be and are not reasonably perceptible from the structure in terms of common visual observation, odors, smell, fragrances, or other olfactory stimulus, light pollution, glare, brightness, adequate ventilation to prevent mold, and noise.

(iv) Provides complete visual screening.

(v) Meets the standards of any applicable state and local electrical, fire, plumbing, and building specification codes.

(b) That the contractor possesses and maintains accurate, detailed plans and elevation drawings of all operational areas involved with the cultivation, extraction, processing, and production of therapeutic marijuana.

(c) That the contractor possesses and maintains a written operations plan, which plan shall be limited to standard operating procedures for the cultivation of marijuana in each facility production area, instructions for making each product produced on the premises, equipment operations manuals, procedures for conducting necessary safety checks, sanitation procedures for working surfaces and equipment, quality control procedures, and emergency preparedness procedures.

(d) That the contractor has connection and access to the Louisiana Medical Marijuana Tracking System.
(e) That the contractor has security against unauthorized entry via the presence of operational alarm and video surveillance systems, limited access areas, secure locking systems, and door controls throughout the facility.

(f) The initial inventory and accuracy of inventory reporting.

(g) The existence of current, complete, and accurate personnel records.

(2)(a) Notwithstanding Paragraph (1) of this Subsection, nothing in this Section shall be construed to obstruct or impede the lawful activity of any licensee or permittee.

(b) The provisions of this Subsection are intended to ensure a reliable, adequate, and uninterrupted supply of therapeutic marijuana to Louisiana patients.

C.(1) Inspections of contractor facilities other than initial inspections shall be conducted in accordance with the procedures and requirements provided in Paragraph (2) of this Subsection:

(2) After a contractor commences producing therapeutic marijuana in an approved facility, the Louisiana Department of Health and the licensed university shall inspect each contractor facility at least twice annually to verify the existence or accuracy of the following:

(a) Possession and accuracy of detailed plans and elevation drawings of all operational areas involved with the cultivation, extraction, processing, and production of medical marijuana.

(b) Existence and possession of a current written operations plan.

(c) Connection and accessibility to Louisiana Medical Marijuana Tracking System.

(d) Operational alarm and video surveillance systems.

(e) Secure locks throughout the facility.

(f) Controls to limited access areas.

(g) Current, complete, and accurate personnel records.

(h) Biannual inventory reports.
D. All of the following standards and requirements for security shall apply with respect to contractor facilities:

(1) Any contractor facility alarm or surveillance system shall include the following:

(a) A panic device that sounds an audible alarm and notifies law enforcement.

(b) Surveillance system coverage for all points of ingress and egress to the facility, including but not limited to doorways, windows, and loading bays.

(c) "Duress" or "hold up" features to enable activation of a silent alarm.

(d) Date- and time-stamped recording of all points of ingress and egress, any limited access areas including rooms containing a safe, any room in which any part of the disposal process occurs, and any room or area used to cultivate, extract, process, produce, or store therapeutic marijuana.

(e) Capabilities including continuous recording, archiving, and at least one on-site display monitor connected to the system.

(2) Each contractor facility shall maintain on-site security personnel, at a minimum, during standard United States business hours of eight o'clock a.m. to five o'clock p.m. and shall maintain off-site, electronic security monitoring at all other times.

(3) All surveillance recordings shall be maintained for a minimum of thirty days and access to surveillance controls and monitoring shall be limited to specifically-authorized personnel.

(4) Each contractor shall limit access to and post limited-access signage where marijuana is cultivated, extracted, processed, produced, or stored. Limited access areas shall remain locked and accessible only by authorized personnel.

(5) Each employee, supervisor, or agent of each contractor shall keep a current identification card, in a form approved by the department, on his person when present at a contractor facility.
E. All of the following procedures, restrictions, and authorizations shall apply relative to visitors at contractor facilities:

(1) Persons who do not possess a contractor identification card shall be issued a visitor identification badge after signing a log maintained by the contractor that properly identifies the visitor to the premises. The visitor shall wear the badge for the duration of his time on the premises, and the visitor shall not be left unaccompanied in any area where marijuana or marijuana products are present.

(2) Notwithstanding Paragraph (1) of this Subsection, if it is necessary for a visitor to enter a facility to conduct repairs, maintenance, or other specific duties on the premises, the visitor may be escorted to the work site and left unaccompanied while completing a job if that job is not within a limited access area. If it is necessary for a visitor to enter a facility's limited access area, the visitor shall be escorted to the work area and must remain accompanied by facility personnel while the work is being completed in the limited access area if marijuana or marijuana products are within the limited access area. The visitor may be left unaccompanied in the limited access area if no marijuana or marijuana products are within the limited access area while the visitor is present. If the visitor is left unaccompanied in the limited access area, facility personnel shall ensure that the visitor is under video surveillance for the duration of the visitor's time spent on the premises.

F. All of the following requirements shall apply with respect to data management by contractors:

(1) Each contractor shall acquire and maintain all software, hardware, and communications infrastructure necessary to ensure connectivity to and implementation of the Louisiana Medical Marijuana Tracking System, referred to hereafter in this Subsection as the LMMTS, to track therapeutic marijuana from seed to distribution to an approved laboratory, to licensed pharmacies, to another cultivation contractor or to destruction, tagging each plant and product with a unique identification number, and entering the number into LMMTS for tracking. The
contractor shall bear the cost of all expenses related to tracking, tagging, and
implementation of the LMMTS.

(2) Within twenty-four hours of the respective qualifying event, the
contractor shall record the following in the LMMTS:

(a) Any purchase or acquisition of therapeutic marijuana seeds; plants,
including immature plants and seedlings; or derivatives thereof.

(b) The sale, transfer, or transport of therapeutic marijuana or its derivatives
to another contractor, approved laboratory, or therapeutic marijuana pharmacy.

(c) The disposal of therapeutic marijuana.

(3) Notwithstanding any other provision of this Section, each contractor shall
keep all documents and information required by this Part for at least the current year
and the three preceding calendar years, including but not limited to business records
necessary to fully account for each business transaction conducted by contractor.

G. All of the following standards and requirements shall apply to contractors'inventory:

(1) Each contractor shall maintain a comprehensive inventory of all
marijuana, including, without limitation, usable marijuana available for dispensing,
mature marijuana plants, and seedlings at each authorized location. Following an
initial inventory, all marijuana shall be inventoried on a weekly basis.

(2) Any therapeutic marijuana waste product shall be properly weighed and
recorded in the Louisiana Medical Marijuana Tracking System and stored in a
limited-access area of a contractor facility until rendered unusable.

H. Material safety data sheet requirements shall include all of the following:

(1) Any pesticides or chemicals used by a contractor in the production of
therapeutic marijuana shall be used and stored according to the contractor's written
operations plan.

(2) Each contractor shall maintain a material safety data sheet in each facility
area where toxic cleaning compounds, sanitizing agents, solvents used in the
production of therapeutic marijuana extracts and concentrates, pesticide chemicals, or other agricultural chemicals are used or stored.

(3) Each contractor shall record the following information when applying a pesticide or other agricultural chemical to therapeutic marijuana at any cultivation stage:

(a) The date and time of the pesticide or chemical application.
(b) The name of each individual who applied the pesticide or chemical.
(c) The identification number of all batches receiving the application.
(d) The amount and name of the pesticide or chemical applied, including the United States Environmental Protection Agency registration number, if any.

I. All of the following requirements shall apply to transportation of therapeutic marijuana by contractors:

(1) Prior to transporting therapeutic marijuana, a contractor shall generate an inventory manifest in the Louisiana Medical Marijuana Tracking System, referred to hereafter in this Subsection as the LMMTS, including all of the following information:

(a) The name of the contractor originating the transport.
(b) The name of the contractor, approved laboratory, or licensed pharmacy receiving the transport.
(c) The quantity by weight or unit of each type of therapeutic marijuana product contained in the transport.
(d) The date and approximate departure and arrival times for the transport.
(e) The identity of all agents accompanying the transport.
(f) The make, model, and license plate number of the transport delivery vehicle.

(2) The contractor originating the transport shall provide the contractor, approved laboratory, or licensed pharmacy receiving the transport with a copy of the LMMTS inventory manifest, which shall not be altered after departing the originating contractor's facility.
(3) The contractor, approved laboratory, or licensed pharmacy receiving the
transport shall record the quantities of all therapeutic marijuana products in the
LMMTS. However, any contractor, approved laboratory, or licensed pharmacy
receiving a therapeutic marijuana transport shall refuse the transport if it is not
accompanied by an unaltered LMMTS inventory manifest.

§1046.2. Therapeutic marijuana laboratory; licensure and renewal requirements

A.(1) Prior to analyzing, testing, or handling therapeutic marijuana in
Louisiana, an applicant for a therapeutic marijuana laboratory license shall submit
an initial license application on a form and in a manner prescribed by the Louisiana
Board of Pharmacy, referred to hereafter in this Section as the "board".

(2) Approved laboratories may include the Department of Agriculture and
Forestry agricultural chemistry laboratory; the colleges, universities, other
institutions, and systems governed by the Louisiana Board of Regents; public-private
partnerships involving the systems, colleges and universities governed by the
Louisiana Board of Regents and private laboratories; and private laboratories. The
Department of Agriculture Forestry agricultural chemistry laboratory shall be exempt
from the application process and deemed approved but shall comply with
Subparagraphs (d) and (e) of this Paragraph. All other applicants shall meet all of
the following requirements:

(a) Be accredited by the National Institute on Drug Abuse, the National
Environmental Laboratory Accreditation Conference, the International Organization
for Standardization, or other accrediting entity approved by the board, which
accreditation shall be maintained in active and good standing or other substantially
similar status for the duration of licensure.

(b) Employ or hire a laboratory director or other qualifying individual. The
laboratory director or other qualifying individual and any persons involved in the
testing of marijuana or marijuana products or whose involvement with the laboratory
requires or authorizes access to restricted limited access areas of the laboratory shall
obtain a permit in accordance with the requirements of R.S. 40:1047.
(c) Submit to at least one on-site facility inspection conducted by the board or its designee prior to licensure.

(d) Implement and utilize the Louisiana Medical Marijuana Tracking System (LMMTS) computerized inventory tracking system to post accurate analyses and results, which shall be subject to board review. Payment of any costs associated with access to or implementation or use of LMMTS shall be the responsibility of the laboratory exclusively.

(e) Demonstrate acceptable laboratory performance standards regarding accuracy, precision, proficiency, reportable ranges, specificity, or other quality controls required by the board or its designee.

B.(1) Each therapeutic marijuana laboratory license shall be effective for one year and shall be renewed on or before December 31 annually.

(2) Each therapeutic marijuana laboratory licensee shall apply for license renewal on or before October 31 each year on a form and in a manner prescribed by the board.

(3) Any therapeutic marijuana laboratory license not timely renewed as required by this Subsection shall expire on December 31 at midnight. Upon expiration of the license, the laboratory shall cease all operations and destroy all marijuana or marijuana products physically remaining at its location.

(4) Prior to granting a license renewal application, the board shall ensure that the therapeutic marijuana laboratory licensee continues to meet the requirements of this Part, including but not limited to the licensee's compliance with Subsection A of this Section and its good standing with applicable requirements of the secretary of state. The board or its designee shall conduct an out-of-cycle inspection of the therapeutic marijuana laboratory licensee if necessary to ensure acceptable lab performance standards, accuracy, precision, proficiency, reportable ranges, specificity, or other quality controls and assurances necessary to protect Louisiana patients.

§1046.3. Testing; sample collection; minimum standards; reporting; remediation
A. (1) Each contractor permitted to cultivate, extract, process, produce, and
transport therapeutic marijuana pursuant to this Part shall comply with approved
minimum standards by making each batch of therapeutic marijuana subject to
random selection, sampling, and analysis conducted by an independent approved
laboratory collector in a volume sufficient to ensure compliance.

(2) Each therapeutic marijuana laboratory licensed according to this Part
shall maintain test results for no less than three years.

(3) The laboratory shall record test results in the Louisiana Medical
Marijuana Tracking System and produce a certificate of analysis to be delivered to
the Louisiana Board of Pharmacy and contractor permitted to cultivate, extract,
process, produce, and transport therapeutic marijuana within twenty-four hours of
test completion.

B. Therapeutic marijuana shall not be used to produce any form of product
until it has passed all required testing standards, including appropriate microbial and
fungal limits, acceptable standards for pesticide chemical residues, appropriate
residual solvent and heavy metals limits, homogeneity for concentrates and extracts,
and complete active ingredient analysis or potency analysis to establish the presence
of all active ingredients and their concentrations for accurate calculations of amounts
needed for the production of products and to ensure accurate dosing.

C. (1) Neither a contractor nor an approved laboratory authorized pursuant
to this Part shall release or approve a therapeutic marijuana product for delivery or
sale until a sample from the applicable product batch has complied with all required
testing standards.

(2) A contractor may resubmit to a second approved laboratory any sample
that fails one or more initial tests required by this Part. The sample may be released
for delivery and sale only if it passes all tests conducted by the second approved
laboratory in duplicate. The sample may be remediated according to any reasonably
acceptable industry methods if it fails one or more tests conducted by the second
approved laboratory.
(3) Any remediated sample shall pass remediation testing in duplicate prior to approval for delivery and sale.

(4) A product may be remediated only once, and any product failing remediation testing shall be destroyed within sixty days of the failed test, in addition to the timely destruction of the entire batch from which the sample was collected.

Section 2. R.S. 40:1046(H)(3) through (5) are hereby repealed in their entirety.

Section 3. The Department of Agriculture and Forestry, through its agricultural chemistry laboratory, shall continue performing required testing of marijuana produced for therapeutic use according to applicable rules and regulations in effect on the effective date of this Act, subject to any overriding emergency or permanent testing rules and regulations promulgated by the Louisiana Board of Pharmacy, until at least two additional laboratories are approved by the Louisiana Board of Pharmacy and have both been operational for a minimum of six months to ensure a reliable, adequate, and uninterrupted supply of therapeutic marijuana to Louisiana patients.

Section 4. This Act shall become effective upon signature by the governor or, if not signed by the governor, upon expiration of the time for bills to become law without signature by the governor, as provided by Article III, Section 18 of the Constitution of Louisiana. If vetoed by the governor and subsequently approved by the legislature, this Act shall become effective on the day following such approval.

DIGEST

The digest printed below was prepared by House Legislative Services. It constitutes no part of the legislative instrument. The keyword, one-liner, abstract, and digest do not constitute part of the law or proof or indicia of legislative intent. [R.S. 1:13(B) and 24:177(E)]

HB 697 Original 2022 Regular Session Magee

Abstract: Revises laws establishing and providing for a regulatory system for medical marijuana.

Proposed law revises laws establishing and providing for a regulatory system for marijuana for therapeutic use, known commonly as medical marijuana, in the following ways:

(1) Transfers duties for licensure and regulation of medical marijuana production facilities from the La. Dept. of Agriculture and Forestry (LDAF) to the La. Dept. of Health (LDH).
(2) Transfers duties with respect to testing of medical marijuana from LDAF to the La. Board of Pharmacy (board).

(3) Provides requirements and standards for laboratories that conduct testing of medical marijuana.

(4) Provides for selection of marijuana production contractors by licensed producers of medical marijuana and for oversight and regulation of such contractors.

Proposed law requires the board to reserve one marijuana pharmacy permit for each of the nine public health regions of the state identified in proposed law. Stipulates that within three months after the registration of 5,000 qualified patients within any region, the board shall issue to an existing marijuana pharmacy licensed and operating in that region one additional marijuana pharmacy permit for a location in the region. Provides that thereafter, the board shall issue an additional marijuana pharmacy permit after the registration of each additional increment of 5,000 qualified patients, within any region.

Proposed law provides requirements and standards for marijuana production contractors of licensed producers of medical marijuana, including requirements and standards with respect to all of the following:

(1) Initial inspections of contractor facilities.

(2) Inspections of contractor facilities subsequent to initial inspections.

(3) Security at contractor facilities.

(4) Visitors at contractor facilities.

(5) Data management by contractors.

(6) Contractors’ inventory.

(7) Material safety data sheet requirements.

(8) Transportation of therapeutic marijuana by contractors.

Proposed law requires that marijuana produced for therapeutic use be tested by a facility licensed by the board in accordance with proposed law as a therapeutic marijuana laboratory. Requires that applicants for licensure as a therapeutic marijuana laboratory meet all of the following requirements in order to qualify for a license:

(1) Be accredited by the National Institute on Drug Abuse, the National Environmental Laboratory Accreditation Conference, the International Organization for Standardization, or other accrediting entity approved by the board, which accreditation shall be maintained in active and good standing or other substantially similar status for the duration of licensure.

(2) Employ or hire a laboratory director or other qualifying individual who meets certain suitability requirements provided in present law.

(3) Submit to at least one on-site facility inspection conducted by the board or its designee prior to licensure.

(4) Implement and utilize the Louisiana Medical Marijuana Tracking System computerized inventory tracking system to post accurate analyses and results, which shall be subject to board review.
(5) Demonstrate acceptable laboratory performance standards regarding accuracy, precision, proficiency, reportable ranges, specificity, or other quality controls required by the board.

Proposed law stipulates that the LDAF agricultural chemistry laboratory shall be exempt from the application process and deemed approved as a therapeutic marijuana laboratory; requires, however that such laboratory shall comply with the requirements of paragraphs (4) and (5) above.

Proposed law requires LDAF to continue to conduct laboratory testing of marijuana produced for therapeutic use according to applicable rules and regulations in effect on the effective date of proposed law, unless otherwise provided for in rules of the board, until at least two additional laboratories are approved by the board and have both been operational for a minimum of six months to ensure a reliable, adequate, and uninterrupted supply of therapeutic marijuana to Louisiana patients.

Proposed law recognizes and declares that both the Louisiana State University Agricultural Center (LSU Ag Center) and the Southern University Agricultural Center (SU Ag Center) timely exercised and asserted their intent to be licensed to produce recommended marijuana for therapeutic use in this state in accordance with the provisions of Act No. 261 of the 2015 RS.

Proposed law repeals present law providing procedures for selection and licensing of a therapeutic marijuana producer in the event that neither the LSU Ag Center nor the SU Ag Center is licensed as a production facility.

Effective upon signature of governor or lapse of time for gubernatorial action.

(Amends R.S. 40:1046(A)(1), (C)(1) and (2)(intro. para.), (g), and (h), (G), and (H)(1), (2), and (6)(a)(intro. para.) and (b); Adds R.S. 40:1046(A)(7), (B), and 1046.1-1046.3; Repeals R.S. 40:1046(H)(3)-(5))
