HB 909 Original

2022 Regular Session

Edmonds

Abstract: Establishes within the Dept. of Children and Family Services a continuum of care program for biological parents of unborn children and biological or adoptive parents of child under the age of two.

Proposed law creates within the Dept. of Children and Family Services (DCFS) a continuum of care program for certain pregnant women and parents. Provides that the purpose of the program is to facilitate the operation of a statewide telecare support network that provides community outreach, consultations, and care coordination for women who are challenged with unexpected pregnancies.

Proposed law provides that the continuum of care program shall be designed to accomplish all of the following goals:

- (1) Encourage healthy childbirth.
- (2) Support childbirth as an alternative to abortion.
- (3) Promote family formation.
- (4) Assist parents in establishing successful parenting techniques.
- (5) Increase the economic self-sufficiency of families.

Proposed law provides that the continuum of care program shall encompass the existing TANF initiative known as "Alternatives to Abortion" along with a statewide telecare support network. Requires that DCFS provide in rule for the functions and administration of the telecare support network.

Proposed law requires that DCFS finance the continuum of care program with TANF funds and any other monies appropriated to it by the legislature for operation of the program.

Proposed law provides that the continuum of care program shall provide direct services, supports, social services case management, and referrals to biological parents of unborn children and biological or adoptive parents of children under the age of two years. Provides that the components of the program shall include, without limitation, all of the following:

- (1) Outreach to at-risk populations eligible for the program.

- (2) Utilization of registered nurses to assess and evaluate needs related to pregnancy or parenting and to provide medically accurate, pregnancy-related medical information to program participants.
- (3) Utilization of social workers or other licensed individuals with equivalent experience to perform the following functions:
 - (a) Development of a care plan, resources, and supports for program participants to address identified needs.
 - (b) Referrals to appropriate local resources including, without limitation, state and federal benefits programs and local charitable organizations.
 - (c) Assistance in applying for state and federal benefits programs.
 - (d) Assistance in accomplishing elements of the care plan.

Proposed law stipulates that in order to be eligible to receive services through the continuum of care program, an individual shall, at the time of initial contact with the program, meet all of the following requirements:

- (1) Is a resident of this state.
- (2) Is a biological parent of an unborn child or a biological or adoptive parent of a child under the age of two years.

Proposed law provides that any program participant who terminates a pregnancy shall be eligible to continue receiving services through the continuum of care program for a period of six months from the date of the pregnancy termination.

Proposed law requires that on or before Dec. 1, 2022, and annually thereafter, DCFS shall submit to the legislative committees on health and welfare a report on the status and operation of the continuum of care program and provides requirements for the content of such reports.
