EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure. Proposed law adjusts the fines associated with failure to have a generator identification number and establishes penalties for gross littering of tires. The department indicates that implementation of this measure can be accomplished with current staff and resources.

REVENUE EXPLANATION

Proposed law may result in an indeterminable increase in local funds revenue as a result of the increase in fines imposed for not holding a valid generator identification number and the establishment of fines for the gross littering of tires. Penalties for not holding a valid generator identification number is set at a minimum of \$5,000, imprisonment, or both. Penalties for the gross littering of tires varies by conviction and ranges between \$1,800 and \$20,000, plus the cost of removal, transportation, and processing of tires. Because the number of persons who may be convicted under the proposed law is unknown, revenue derived from this source is indeterminable. However, if these fines are levied for these crimes, they would accrue to local governing authorities.
