18 §276.1. Water safety; required instruction

19 A.(1) Age- and grade-appropriate instruction on water safety shall be
20 provided to each public school student. Such instruction shall be incorporated into

1 an existing required course, such as health, physical education, or another course
2 deemed appropriate by the public school governing authority.

3 (2) At a minimum, such instruction shall include instruction on the
4 following:

5 (a) The proper use of flotation devises.

6 (b) Awareness of water conditions.

7 (c) The proper supervision of swim areas.

8 (d) Safe behaviors in and around the water.

9 (e) The importance of pool barriers and fencing.

10 (f) The importance of formal swim lessons.

11 (g) The importance of avoiding alcohol and substance use with water
12 recreation.

13 (h) The importance of cardiopulmonary resuscitation for drowning victims
14 and the importance of administering such aid.

15 B.(1) Each governing authority shall adopt policies necessary for the
16 implementation of this Section.

17 (2) Each governing authority may customize the instruction for its student
18 population based on geographic characteristics and any other special circumstances
19 applicable to the school or school district.

20 C.(1) The state Department of Education shall establish and maintain a
21 clearinghouse of instructional materials and information regarding model water
22 safety curricula and best practices for water safety instruction.

23 (2) The department shall review the materials and information at least once
24 biannually and revise them based on updated information, as needed.
