EXPENDITURE EXPLANATION

Proposed law will not increase expenditures in the Division of Administration - Office of State Procurement to implement the provisions of this bill.

Proposed law may result in a workload increase to the extent the Louisiana Legislative Auditor (LLA) increases the audits. To the degree, the LLA experiences a workload increase, it will absorb any expenditures associated with the workload increase. NOTE: LLA interprets proposed law as an option to perform these procedures and not a separate audit (with report). In this case, the work can be absorbed by LLA.

The LLA reports that proposed law may result in an indeterminable increase to local governing authorities in the impact on the location for independent certified public accountants (CPAs) auditing local governments as the cost will be passed on to the entity. It is difficult to estimate the costs will be based on the risk identified by the auditors and related audit/testing procedures performed as a result of identified risk.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
