Page 15 of 18

<u>Proposed law</u> provides that monies in the LASERS Subfund are to be drawn by the La. State Employees' Retirement System (LASERS) for application to the system's original amortization base. Defines "original amortization base" to mean the consolidated debt schedule amortizing the unfunded accrued liability of the system as of June 30, 1988. Further provides that any application of monies from the fund to such debt shall be in lieu of any equivalent payment toward such debt that otherwise would have been made through employer contributions in FY 2023-2024.

<u>Present law</u> (R.S. 48:77) dedicates a portion of avails of the temporary 0.45% state sales and use tax on the sale, use, consumption, storage, or lease of tangible personal property and certain services in La. to the Transportation Trust Fund and the Megaprojects Leverage Fund. <u>Proposed law</u> retains <u>present law</u>.

<u>Proposed law</u> dedicates the <u>remainder</u> of the 0.45% state sales and use tax avails levied pursuant to R.S. 47:321.1 to the Teachers' Retirement System of La. (TRSL) original amortization base. Beginning July 1, 2023, <u>proposed law</u> requires deposit of the remaining 0.45% tax avails into the TRSL Subfund of the 2024 IUAL Payment Fund.

<u>Proposed law</u> provides that in FY 2023-2024, monies in the TRSL Subfund are to be applied to the TRSL original amortization base as follows:

- (1) Each month an amount equal to one-twelfth of the amount required pursuant to <u>present law</u> necessary to make that fiscal year's amortization payment on the original amortization base shall be drawn from the subfund and applied to such debt. After the application of such amount toward the original amortization base, <u>proposed law</u> requires the system to credit each employer with its proportionate share of such amount based on the employer's aggregate FY 2022-2023 payroll, as reported to the system.
- (2) After all draws required pursuant to Paragraph (1), above, are made, <u>proposed law</u> requires the balance in the fund, less \$18M, to be drawn by TRSL prior to the end of the fiscal year and applied to the system's original amortization base. Requires such payment to be in addition to and in no way supplant any payment toward such base otherwise required by law.

In FY 2024-2025, <u>proposed law</u> requires monies in the TRSL Subfund to be drawn and applied as follows:

- (1) Each month an amount equal to one-twelfth of the amount required pursuant to <u>present law</u> necessary to make that fiscal year's amortization payment on the original amortization base shall be drawn from the fund and applied to such debt. After the application of such amount toward the original amortization base, requires TRSL to credit each employer with its proportionate share of such amount based on the employer's aggregate FY 2023-2024 payroll, as reported to the system.
- (2) After all draws required pursuant to Paragraph (1), above, are made, <u>proposed law</u> requires the balance in the subfund to be drawn by the system prior to the end of the fiscal year and applied to the system's original amortization base. Requires such payment to be in addition to and in no way supplant any payment toward such base otherwise required by law.

<u>Proposed law</u> further provides that no draws from the TRSL or LASERS Subfunds shall be approved until the Revenue Estimating Conference has adopted an official forecast with a projected balance for the applicable subfund. Further provides that if such a forecast is adopted after July 1, 2023, the first draw by TRSL shall be for an amount sufficient to cover all missed monthly draws to date plus the current month's draw, with monthly draws in accordance with the provisions of <u>proposed law</u> to commence thereafter.

<u>Proposed law</u> further provides that draws may only be made on the TRSL Subfund until the original amortization base is liquidated. Requires the director of TRSL to notify the state treasurer immediately if the system's original amortization base is liquidated prior to expiration of the 0.45% state sales and use tax levy. If the original amortization base is liquidated, requires deposits into the TRSL Subfund to cease and the monies that otherwise would have been deposited into the subfund to be deposited into the state general fund. Upon notification by the director of TRSL of liquidation of the original amortization base, proposed law directs the treasurer to transfer any remaining balances in the subfund to the state general fund.

<u>Proposed law</u> establishes the Public Safety and Crime Prevention Fund in the state treasury. Provides that the fund may receive any monies appropriated by the legislature and that any unexpended and unencumbered funds in the fund at the end of the fiscal year shall remain in the fund. Requires monies in the fund to be invested by the treasurer in the same manner as monies in the state general fund and that any interest earned on such investment be deposited into the fund. <u>Proposed law</u> provides that, subject to appropriation, monies in the fund are to be used by the office of state police for public safety services, including patrol and law enforcement, in any parish having a population of not less than 280,000 persons and not more than 420,000 persons according to the latest federal decennial census.

Effective upon signature of governor or lapse of time for gubernatorial action, except that transfers for FY 2023-2024 are effective July 1, 2023.
