HOUSE CONCURRENT RESOLUTION NO. 122

BY REPRESENTATIVE KERNER

MEDICAID: Memorializes the United States Congress to adopt strategies for improving access to dental care for adults with intellectual and developmental disabilities

A CONCURRENT RESOLUTION

2	To memorialize the United States Congress to adopt strategies for improving access to
3	dental care for adults with intellectual and developmental disabilities.
4	WHEREAS, our country is failing to adequately care for the oral health needs of the
5	nearly nine and a half million people with intellectual and developmental disabilities in the
6	United States who rely upon Medicaid and its limited network of oral healthcare providers
7	for their oral health needs; and
8	WHEREAS, poor oral health contributes to the decay of physical health and is linked
9	to respiratory, cardiovascular, and endocrine diseases; and
10	WHEREAS, significant health disparities exist between those with intellectual and
11	developmental disabilities compared with nondisabled persons which can be greatly
12	attributed to poor oral health; and
13	WHEREAS, adults with intellectual and developmental disabilities experience
14	significant issues accessing quality, affordable, and timely oral healthcare services with
15	community-based support services; and
16	WHEREAS, adults with intellectual and developmental disabilities remain the largest
17	minority population with unmet oral healthcare needs despite efforts by federal, state, and
18	local governments, legislatures, and advocates; and
19	WHEREAS, adults with intellectual and developmental disabilities have complex
20	healthcare conditions that require unique and tailored oral healthcare services; and
