

GREEN SHEET REDIGEST

HB 399

2023 Regular Session

Edmonston

**VACCINES/VACCINATION: Requires that communication issued about immunization requirements include exemption information and applies exemptions not only to students seeking to enter school but also to students attending school.**

-----

DIGEST

Present law requires each person entering any school (licensed day care centers and elementary, secondary, and postsecondary schools) for the first time to present satisfactory evidence of immunity to or immunization against vaccine-preventable diseases according to a schedule approved by the office of public health or to present evidence of an immunization program in progress. Exempts a student seeking to enter any such school or facility from this requirement if he submits a written statement from a doctor relative to medical contraindication or a written dissent.

Proposed law:

- (1) Applies the exemption not only to students seeking to enter school but also to students attending school.
- (2) Requires that any communication issued to students or their parents or guardians relative to immunization requirements include the text and legal citation of the present law exemption provision.

Present law allows the administrators of an institution or facility, upon the recommendation of the office of public health, to exclude from attendance unimmunized students and clients in the event of an outbreak of a vaccine-preventable disease at the location of an educational institution or facility until the appropriate disease incubation period has expired or the unimmunized person presents evidence of immunization.

Proposed law retains present law but authorizes the administrators of an institution or facility, upon the recommendation of the office of public health, to exclude from attendance any student or client for whom it has no record of or insufficient record of immunization.

Proposed law exempts any person at a postsecondary education institution that is taking courses that do not require meeting physically on campus for any reason or at any time from providing current immunization documents. Proposed law further provides that if the person subsequently registers for courses that meet physically on campus, then he must provide evidence of current immunization.

(Amends R.S. 17:170(E) and (F); adds R.S. 17:170(G))

Summary of Amendments Adopted by Senate

Committee Amendments Proposed by Senate Committee on Education to the engrossed bill

- 1. Authorize the administrators of an institution or facility, upon the recommendation of the office of public health, to exclude any student or client for whom it has no record of or insufficient record of immunization from attendance in the event of an outbreak of a vaccine-preventable disease at the location of an educational institution or facility until the appropriate disease incubation period has expired or the person presents evidence of immunization.

2. Exempt any person at a postsecondary education institution that is taking courses that do not require meeting physically on campus for any reason or at any time from presenting current immunization documents.
3. Require a person who subsequently registers for courses that meet physically on campus, after not meeting physically on campus, to present evidence of current immunization documents.
