

## RÉSUMÉ DIGEST

**ACT 360 (HB 656)**

**2023 Regular Session**

**DeVillier**

Existing law defines a water cooperative as a nonprofit water utility cooperative or corporation that is wholly owned by water user members.

New law prohibits a water cooperative from arbitrarily denying a request for water service to a properly permitted residential or commercial structure that is located within the cooperative's service area. New law does not prohibit discontinuing service to a customer for a just cause.

Effective August 1, 2023.
