EXPENDITURE EXPLANATION

The proposed constitutional amendment may result in a minimal increase in programming costs for the Department of State to update voting machines for statewide judicial elections and can likely be absorbed within the department's existing operating budget.

The Department of State may incur minimal ballot processing costs associated with this measure. As a regular practice, the Department of State typically budgets for up to 10 constitutional amendments and statewide propositions for the fall statewide elections. To the extent the ballot includes more than 10 constitutional amendments and statewide propositions, the Department of State may require additional SGF resources for the November 5, 2024, statewide election. Any expenditure impact would be realized in FY 25.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
