

1           WHEREAS, China is believed to be operating secret police outposts not only in the  
2 United States but in countries around the globe; and

3           WHEREAS, while these stations may perform some basic and legitimate services,  
4 such as helping Chinese citizens renew their Chinese driver's licenses, they also serve a more  
5 sinister function, namely, to help the Chinese government locate pro-democracy activists in  
6 the United States; and

7           WHEREAS, these stations further allow the Chinese government to engage in  
8 "transnational repression", whereby the Chinese government works to identify, intimidate,  
9 and silence dissidents in the United States; and

10           WHEREAS, these secret police stations constitute a blatant violation of America's  
11 national sovereignty and amount to a brazen effort to trample the rights and liberties that are  
12 the bedrock of our American democracy; and

13           WHEREAS, state and local law enforcement agencies across the country should  
14 assist and cooperate with the United States Department of Justice in its efforts to defend our  
15 democracy, our democratic institutions, and our sovereignty.

16           THEREFORE, BE IT RESOLVED that the Legislature of Louisiana does hereby  
17 urge and request state and local law enforcement agencies to cooperate with federal  
18 authorities in discovering and closing clandestine branches of the Chinese Ministry of Public  
19 Security serving as secret police stations in the United States.

20           BE IT FURTHER RESOLVED that a copy of this Resolution be transmitted to the  
21 Louisiana Department of Public Safety, office of state police; the Louisiana Sheriffs'  
22 Association; and the Louisiana Association of Chiefs of Police.

SCR 5 Original

DIGEST  
2024 Regular Session

Fesi

Requests state and local law enforcement to cooperate with federal authorities in discovering  
and closing clandestine branches of the Chinese Ministry of Public Security serving as secret  
police stations in the United States.
