**EXPENDITURE EXPLANATION**

There is no anticipated material effect on governmental expenditures as a result of this measure.

The Louisiana Department of Education (LDOE) reports that federal regulations, specifically those governing the National School Lunch and Breakfast programs, require that all food components served in schools (including seafood) be domestic products of the United States. The only exception to this requirement is provided through a *Buy American* exemption filed with LDOE’s Division of Nutrition Support, and is allowed only if the domestic product is cost-prohibitive or availability is extremely limited. Schools will need to be informed that the *Buy American* exemption will no longer be available for seafood products. LDOE reports they do not know how many schools currently have a seafood exemption, if any, but do not expect a significant impact as a result of proposed legislation requirements as seafood tends to be offered on menu items significantly less than other protein options.

A U.S. Government Accountability Office report published in November 2022 supports this. The report was based on a collection of data from the 2012-2019 school years provided by the school food authorities of 10 states, including Louisiana, that would be expected to serve above average amounts of seafood based on their geographic location. The data collected reflected that the U.S. Department of Agriculture (USDA) purchased a limited quantity of seafood compared to other protein options. This is attributed to a few factors, such as student preference, allergen concerns, and cost. Louisiana purchased an average of 4.6 ounces of seafood, per student, during that time period. A review of menus across the state reflects this, as most schools only offer a meal including seafood once or twice each month.

**REVENUE EXPLANATION**

There is no anticipated direct material effect on governmental revenues as a result of this measure.

Senate      Dual Referral Rules  
 13.5.1 >= \$100,000 Annual Fiscal Cost {S & H}  
 13.5.2 >= \$500,000 Annual Tax or Fee Change {S & H}

House  
 6.8(F)(1) >= \$100,000 SGF Fiscal Cost {H & S}  
 6.8(G) >= \$500,000 Tax or Fee Increase or a Net Fee Decrease {S}
