HB 822 Original

2024 Regular Session

Egan

Abstract: Provides for donation and transfusion of blood collected from a person who received certain vaccinations.

Proposed law requires any person donating blood to disclose whether he has received a COVID-19 vaccination or messenger ribonucleic acid (mRNA) vaccination.

Proposed law requires any person collecting blood to clearly label the receptacle containing the collected blood with a donor's vaccination status.

Proposed law permits a recipient of a blood transfusion to request blood based on if an individual has received a COVID-19 or mRNA vaccination during a nonemergency situation, as determined by a licensed healthcare professional if the blood is available.

Proposed law tasks the La. Dept. of Health with developing rules and regulations to implement the provisions of proposed law.

Effective Sept. 1, 2024.
