EXPENDITURE EXPLANATION

Proposed legislation may result in a nominal increase in local fund expenditures for local education agencies.

Proposed legislation mandates that each local education agency (LEA) adopt a policy requiring schools to provide written information regarding continuing or permanent tutorship to parents of 15-17 year old children enrolled in an Individualized Education Program (IEP), at the first IEP meeting of the school year. LEAs may incur costs to provide written copies of the required informational document, and to develop and provide a parental acknowledgment form to confirm receipt of the required tutorship information; however, such costs are expected to be minimal. The document must include, at a minimum, information about the educational, financial, and medical decisions a parent may not be able to make for their child once the child reaches the age of 18. This information is to be developed and provided by the Louisiana Department of Education (LDOE), which provided that any costs realized by the department as a result of this requirement can be absorbed within its current operating budget.

LDOE reports they can provide the required tutorship information through updates to the Special Education (SPED) Procedural Safeguard Handbook. Receipt of this handbook is confirmed through the existing Special Education Reporting (SER) system.

If SB 61 of the 2024 Regular Session becomes law, the Louisiana State Law Institute is authorized to change "continuing or permanent" to "full or limited continuing." This change will have no impact on the information provided in this note.
