EXPENDITURE EXPLANATION

This measure will result in an expenditure increase in the Office of Risk Management, in which survivor benefits would be payable in the event of death for firefighters employed by or under the control of one of the following federal agencies: 1) Department of Defense, 2) Department of Agriculture, 3) Department of Interior, and 4) Federal Emergency Management Administration. This measure expands the eligibility of firemen to receive the \$250,000 survivor benefits allocated to the surviving spouse, child, or other beneficiary of a fireman who suffers death as a result of an injury arising out of any activity in his capacity as a fireman in the protection of life and property in Louisiana.

The Office of Risk Management (ORM) is unaware of any filings or inquiries regarding benefits for the survivors of these firefighters. The proposed legislation would involve at least a \$250,000 cost increase if one (1) of these firefighters were to suffer death as a result of an injury arising out of any activity in his capacity as a fireman in the protection of life and property; however, ORM is unable to determine how often this cost will occur, so the cost amount is indeterminable. The provisions of this proposed law will be applied retroactively to August 1, 2023.
