**EXPENDITURE EXPLANATION** 

There is no anticipated direct material effect on governmental expenditures as a result of this measure.

## **REVENUE EXPLANATION**

Proposed law will decrease Local Funds revenues by an indeterminable amount as a result of fines being reduced and increase revenues into the indigent defender fund of corresponding local judicial districts by an indeterminable amount. Proposed law repeals present law fines of \$500 for the first violation; \$1,000 for 2nd and subsequent violations; and double fines if a driver was involved in a traffic accident. Proposed law provides for lower fines of \$50 - \$100 and up to 15 hours of community service for 1st offense; \$100 - \$300 and up to 30 hours of community service for 2nd offense; \$100 - \$300 and up to 60 hours of community service and 30 days license suspension for 3rd offense; and maintains that fines shall be doubled if the driver involved in a traffic accident is found to violate or the prohibition on using wireless devices.

Under the present law, the indigent defender fund of the judicial district in which the violation is issued receives \$25 from the fines collected. Proposed law retains the \$25 collected on 1st offenses and provides \$50 from fines collected on subsequent violations accrue to the indigent defender fund of the judicial district in which the violation was issued. Because the number of drivers who may be fined under the proposed law is unknown, revenue derived from this source is indeterminable. However, all fines would accrue to local governing entities.

Under the proposed law, fines for violations within school and highway work zones remain the same.
