HB 927 Reengrossed

2024 Regular Session

Selders

Abstract: Prohibits a parish or municipality from requiring certain persons to acquire a permit with respect to the transfer of electric services provided by an authorized utility provider.

Present law prohibits parish and municipal governing authorities from requiring any person, who is an account holder with an authorized utility provider and whose account is being charged by the provider for electric services provided to a dwelling located in the state to acquire a permit to change the name of the person listed as the account holder.

Proposed law instead provides that if a person who holds an account with an authorized utility provider that is being charged by the provider for electric services provided to a dwelling located in the state transfers the account to another person, the parish or municipal governing authority is prohibited from requiring the new account holder to acquire a permit to continue electric services provided to such dwelling.
